Introduction

One of the main obstacles to transit use is the lack of public information concerning these services. The Old Colony Planning Council (OCPC) has updated its *Transportation Resource Directory* to provide the public with information on available public transportation in and around the region. Comprehensive schedule and fare information for carrier services in the region as of April 2009 is included for user convenience.

The OCPC *Transportation Resource Directory* is designed to provide valuable information for all transportation alternatives to the private passenger automobile. They offer many advantages when compared with some of the costs and inconvenience of private auto travel.

This directory is designed to provide an incentive for commuters, as well as travelers to consider and use alternate forms of transportation. The region as a whole will benefit from reduced energy consumption, reduced air and water pollution, and reduced traffic congestion.

** Content in this directory is subject to change. Before using this schedule information, please contact transportation business to verify.*
