70 SCHOOL STREET, BROCKTON, MA 02301**

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TABLE OF CONTENTS

<b>INTRODUCTION</b>	<b>1</b>
1.1 - FAST Act, National Planning Factors, and Performance Based Planning	2
1.2 - Title VI and Americans with Disabilities Act (ADA)	19
1.3 - Funding Sources	20
1.4 - Administrative Modification and Amendment Procedures	20
1.5 - Geographic Distribution of Major UPWP Funded Studies	21
<b>TASK 1000: MANAGEMENT AND SUPPORT OF PLANNING PROCESS AND CERTIFICATION ACTIVITIES</b>	<b>24</b>
1100 - 3C Program Support	25
1200 - Unified Planning Work Program (UPWP)	27
1300 - Public Participation Program (PPP)	28
1400 - Transportation Improvement Program (TIP)	30
1500 - Title VI and Environmental Justice (EJ)	32
<b>TASK 2000: DATA RECONNAISSANCE, ACQUISITION, AND ANALYSIS ACTIVITIES</b>	<b>34</b>
2100 - Demographic and Land Use Surveillance	35
2200 - Multi-Modal Transportation System Data Surveillance and System Monitoring	37
2300 - System Planning Resource Activities	39
2400 - Geographic Information System (GIS)	41
2500 - Management Systems (Congestion, Pavement & Safety), and Travel Demand Modeling	42
<b>TASK 3000: SHORT RANGE AND LONG-RANGE TRANSPORTATION PLANNING ACTIVITIES</b>	<b>48</b>
3100 - Regional Transportation Studies and Intermodal Planning	49
3200 - Local Highway Transportation Technical Assistance	52
3300 - Road Safety Audits (RSAs) at Multiple Locations	53
3400 - High Priority Corridor Study Screening Assessment	55
3500 - Freight Planning and Action Plan	57
3600 - Performance Based Planning	59
<b>TASK 4000: OTHER TRANSPORTATION TECHNICAL ACTIVITIES, STAFF, ESTIMATED BUDGET</b>	<b>61</b>
4100 - Transit Technical Assistance, and Seniors and Individuals with Disabilities Support	62
4200 - BAT Planning and Technical Studies	64
Transportation Planning Staff	65
Estimated Budget	66
<b>APPENDICES</b>	
A. FFY 2022 Old Colony Unified Planning Work Program Endorsement	Appendix A
B. §450.336 - Self Certification Compliance Statement - 3C Process Endorsement	Appendix B
C. Estimates of Other Funding Sources, and Other Transportation Planning Activities	Appendix C
D. Glossary of Terms and Acronyms	Appendix D
E. Public Review Period and Public Comments	Appendix E

## DISCLAIMER

The preparation of this report has been financed in part through grant[s] from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the State Planning and Research Program, Section 505 [or Metropolitan Planning Program, Section 104(f)] of Title 23, U.S. Code.

The views and opinions of the Old Colony Planning Council expressed herein do not necessarily state or reflect those of the U. S. Department of Transportation.

## NOTICE OF NONDISCRIMINATION RIGHTS AND PROTECTIONS TO BENEFICIARIES

### FEDERAL "TITLE VI/NONDISCRIMINATION" PROTECTIONS

The Old Colony Metropolitan Planning Organization (MPO) operates its programs, services, and activities in compliance with federal nondiscrimination laws including Title VI of the Civil Rights Act of 1964 (Title VI), the Civil Rights Restoration Act of 1987, and related statutes and regulations. Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of **race, color, or national origin** (including **limited English proficiency**), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance. Related federal nondiscrimination laws administered by the Federal Highway Administration, the Federal Transit Administration, or both prohibit discrimination on the basis of **age, sex, and disability**. These protected categories are contemplated within the Old Colony MPO's Title VI Programs consistent with federal interpretation and administration. Additionally, the Old Colony MPO provides meaningful access to its programs, services, and activities to individuals with limited English proficiency, in compliance with U.S. Department of Transportation policy and guidance on federal Executive Order 13166.

### STATE NONDISCRIMINATION PROTECTIONS

The Old Colony MPO also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 §§ 92a, 98, 98a, prohibiting making any distinction, discrimination, or restriction in admission to or treatment in a place of public accommodation based on **race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry**. Likewise, the Old Colony MPO complies with the Governor's Executive Order 526, section 4 requiring all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on **race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran's status** (including Vietnam-era veterans), or **background**.

### ADDITIONAL INFORMATION

Updated December 2019

Old Colony Planning Council

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## 1. INTRODUCTION

The Old Colony Metropolitan Planning Organization (MPO) conducts and implements a federally certified, continuing, cooperative, and comprehensive transportation planning process (3C) that results in plans, programs, and projects that encompass all transportation modes and that support the region's vision and goals that are articulated in the Old Colony Long Range Transportation Plan (LRTP). The Old Colony MPO plans for the movement of both people and goods within the region by all modes of travel, including highways, rail, public transportation, bicycles, and foot, and plans for the connections linking these modes.

The FFY 2022 Old Colony Unified Planning Work Program (UPWP) describes and provides budgetary information for the transportation planning tasks and activities, which are to be conducted in the region during the federal fiscal year. The UPWP is prepared and endorsed annually by the Old Colony MPO, prior to the start of the planning program. The Old Colony Planning Council (OCPC) has the responsibility of preparing the UPWP and implementing the tasks contained here within.

The FFY 2022 Old Colony UPWP describes the planning to be undertaken by the Old Colony MPO. Transportation planning activities are described as procedures under specific tasks. For each task, the anticipated accomplishment or product is provided. For each task, budget, and sources of funding are also provided. For management convenience, similar tasks are grouped into the following tasks:

- Task 1000 - Management and Support of Planning Process and Certification Activities
- Task 2000 - Data Reconnaissance, Acquisition, and Analysis Activities
- Task 3000 - Short Range and Long-Range Transportation Planning Activities
- Task 4000 - Other Transportation Technical Activities

The Old Colony UPWP is a planning and budgeting tool that is used by Brockton Area Transit (BAT), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Massachusetts Department of Transportation (MassDOT), and Old Colony Planning Council, as the Scope of Services for the contracting for planning services, and may be amended, and/ or administratively modified during the program year with approval of the Old Colony MPO. All relevant tasks will be performed with input from MassDOT District 5.

Continued growth in population, employment, and housing, and the associated increases in travel demand continue to place pressure on the transportation system in the Old Colony Region and beyond. The Old Colony Long Range Regional Transportation Plan represents the Old Colony MPO's effort to create a document and a process that will meet the challenges of preserving and expanding a truly intermodal transportation system. The LRTP includes goals and objectives, performance measures, analyses, and recommendations necessary to build and maintain an efficient, effective, and affordable regional transportation system. It is the intention of the Old Colony MPO to build on the current system, striving to make it comprehensive and multi-modal. The goal is a balanced range of well-connected transportation options that will optimize each travel mode: automobile, transit, rail, bicycle, and pedestrian, boat, air, and freight. The LRTP identifies the region's transportation project needs for the next twenty years. The principal way in which LRTP recommendations will be translated into action is through the Transportation Improvement Program (TIP). The TIP is a multimodal list of investments for which federal surface transportation funds will be used. The TIP covers a five-year period, is updated annually, and is based on reasonable estimates of funds available to the region.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

The FFY 2022 Old Colony UPWP continues to expand on several major tasks that are specifically targeted to implement provisions of several pieces of federal legislation, such as the Fixing America's Surface Transportation (FAST) Act, the Clean Air Act Amendments of 1990, and the Americans with Disabilities Act. The Old Colony MPO develops its programs with regional needs in mind, and in alignment with the FAST Act Planning Factors. The federal transportation act, the FAST Act identifies ten (10) Planning Factors (23 CFR § 450.306(b) that Metropolitan Planning Organizations, such as the Old Colony MPO, must consider in their Unified Planning Work Programs. During the development of the LRTP, goals and objectives were developed to guide the region's transportation planning activities through the near future, as were the performance measures that work towards achieving these goals and objectives. Planning staff collaborated with stakeholders to develop realistic and achievable targets and performance measures for each individual objective. The Old Colony MPO will continue to collaborate with its planning partners and refine the development of targets and performance measures for objectives, as they are applicable. Additionally, planning staff will continue to self-evaluate on progress towards all objectives and report to its planning partners and to the public as appropriate. The following is a listing of the national planning factors with information provided on the related 2020 LRTP objectives and performance measures.

### 1.1 FAST Act, National Planning Factors, and Performance Based Planning

The Fixing America's Surface Transportation Act legislation requires MPOs to implement a continuing, cooperative, and comprehensive performance-based multimodal transportation planning process. To meet this requirement, the Old Colony MPO develops the LRTP, TIP, and UPWP that facilitate the safe and efficient movement of safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight (including accessible pedestrian walkways, bicycle transportation facilities, and intermodal facilities that support intercity transportation, including intercity bus facilities and commuter van pool providers) and that fosters economic growth and development within and between States and urbanized areas, and take into consideration resiliency needs while minimizing transportation-related fuel consumption and air pollution in all areas of the region.

The metropolitan transportation planning process shall be continuous, cooperative, and comprehensive, and provide for consideration and implementation of projects, strategies, and services that will address the following factors:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and non-motorized users;
3. Increase the security of the transportation system for motorized and non-motorized users;
4. Increase accessibility and mobility of people and freight;
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and [State](#) and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
10. Enhance travel and tourism.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

The FAST Act continues to emphasize performance-based planning as an integral part of the metropolitan planning process: states are to develop performance goals, guided by the national goals, and then MPOs will work with state departments of transportation to develop MPO performance measures and targets, or adopt the statewide performance measures and targets. The TIP and UPWP integrates MassDOT's and the MPOs' performance measures and link transportation-investment decisions to progress toward achieving performance targets. The MPOs, MassDOT, and providers of public transportation jointly agree and have developed specific written provisions for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress towards attainment of critical outcomes for the MPO regions and the collection of data for the MassDOT Asset Management Plan.

The Old Colony MPO develops the UPWP with due consideration of planning activities within the metropolitan area and utilizes a process that provides for the design and delivery of transportation services within the metropolitan planning area. The following is an overview of the Old Colony MPO specific goals, performance measures, and targets that reflect the national planning factors and performance-based planning.

**Safety and Security Goals:** Achieve a significant reduction in traffic fatalities and serious injuries on all public roads; increase the safety of the transportation system for motorized and non-motorized users; ensure that the transportation system and its users are safe and secure; and review safety data, goals, objectives, and strategies to promote safety.

The Old Colony MPO has chosen to adopt the statewide safety performance measure targets set by MassDOT for Calendar Year (CY) 2021. In setting these targets, MassDOT has followed FHWA guidelines by using statewide crash data and Highway Performance Monitoring System (HPMS) data for vehicle miles traveled (VMT) to calculate 5 year, rolling average trend lines for all FHWA-defined safety measures. For CY 2020 targets, four of the five safety measures - total number of fatalities, rate of fatalities per 100 million vehicle miles traveled, total number of incapacitating injuries, and rate of incapacitating injuries per 100 million VMT - were established by extending their trend lines into the 2016-2020 period. All four of these measures reflect a modest decrease in statewide trends. The fifth safety measure, the total number of combined incapacitating injuries and fatalities for non-motorized modes, is the only safety measure for which the statewide trend line depicts an increase. MassDOT's effort to increase non-motorized mode share throughout the Commonwealth has posed a challenge to simultaneously reducing non-motorized injuries and fatalities. Rather than adopt a target that depicts an increase in the trend line, MassDOT has elected to establish a target of non-motorized fatalities and injuries and for CY 2021 that remains constant from the rolling average for 2012–2016. In recent years, MassDOT and the Old Colony MPO have invested in "complete streets," bicycle and pedestrian infrastructure, intersection, and safety improvements in both the Capital Investment Plan (CIP) and Statewide Transportation Improvement Program (STIP) to address increasing mode share and to incorporate safety mitigation elements into projects. Moving forward, the Old Colony MPO, alongside MassDOT, is actively seeking to improve data collection and methodology for bicycle and pedestrian VMT counts and to continue analyzing crash clusters and crash counts that include both motorized and non-motorized modes to address safety issues at these locations.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

In all safety categories, MassDOT has established a long-term target of “Toward Zero Deaths” through MassDOT’s Performance Measures Tracker<sup>1</sup> and will be establishing safety targets for the MPO to consider for adoption each calendar year. While the MPO is not required by FHWA to report on annual safety performance targets, FHWA guidelines require MPOs to adopt MassDOT’s annual targets or to establish their own each year.

The safety measures MassDOT has established for CY 2021, and that the Old Colony MPO has adopted, are as follows:

**Total Fatalities:** Per guidance from the Federal Highway Administration (FHWA), MassDOT’s 2021 safety target setting process began with a trend line projection based on the most recent available data (up to 2018). The calendar year (CY) 2021 target of 339 was set to reflect an anticipated decrease in fatalities due to joint initiatives across MassDOT related to sustainable transportation; commitment to several FHWA Every Day Counts (EDC) initiatives (e.g., reducing rural roadway departures); and strategies and legislative proposals that were part of the 2018 Strategic Highway Safety Plan (SHSP), such as the primary seat belt and hands-free driving laws. The region number of fatalities continued its downward trend and decreased to 26 in 2019.

**Fatality Rate:** The CY 2021 target of 0.55 fatalities per 100 million vehicle miles traveled (VMT) reflects an overall reduction from previous years. It should be noted that MassDOT’s long-term goal is to move towards zero deaths.

**Figure 1**  
**Total Fatalities and Fatality Rate**

<sup>1</sup> <https://www.mass.gov/lists/tracker-annual-performance-management-reports>

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

**Total Serious Injuries:** It is anticipated that there will be an overall decrease in the number of serious injuries due to a continual downward trend line as well as the implementation of countermeasures that are being developed as part of the 2018 Strategic Highway Safety Plan (SHSP). The CY 2021 target of 2,580 was set to reflect this trend. The trend for the region is decreasing as well at 232 serious injuries in 2019. For this performance measure, it is important to note that on January 1st, 2019, Massachusetts moved from the term “incapacitating injuries” to “serious injuries,” per federal requirements.

**Serious Injuries Rate:** Similar to the fatality rate, it is anticipated that the downward trend line will result in a drop in the rate of serious injuries from 4.35 per 100 million VMT between 2016-2020 to 4.23 between 2017-2021.

**Figure 2**  
**Total Incapacitating Injuries and Incapacitating Injuries Rate**

**Total Number of Non-Motorized Fatalities and Serious Injuries:** The most recent data for non-motorized fatalities and serious injuries indicates that the previously increasing trend decreased in 2017 and has continued to decrease since then. The region has decreased as well at 28 in 2019. The CY 2021 target has been set to reflect continued projected reductions in non-motorized fatalities and injuries due to several multi-disciplinary and multi-agency implementation strategies contained within the Statewide Bike Plan, Statewide Pedestrian Plan, and Strategic Highway Safety Plan.

It is important to note that in prior years, only bicyclist and pedestrian data were used to calculate this target. More recently, it was determined that this category would include other non-motorists. In addition

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

to bicyclists and pedestrians, this category includes skaters and users of wheelchairs and other mobility devices. The historical data within the graph below includes these additional users.

**Figure 3**  
**Total Number of Non-Motorized Fatalities and Incapacitating Injuries**

The Old Colony MPO will continue to assist MassDOT in striving towards these targets through our project prioritization process and with our evaluation criteria. This criterion, that awards a higher score for safety improvements projects, will result in a measurable reduction in injuries and fatalities. The likely projected decrease from the CY 2020 target is due to several implementation strategies from the Statewide Bike Plan, Statewide Pedestrian Plan, and Strategic Highway Safety Plan. In recent years, MassDOT and the MPO have invested in “Complete Streets,” bicycle and pedestrian infrastructure, intersection, and safety improvements in both the Capital Investment Plan (CIP) and Statewide Transportation Improvement Program (STIP) to address an increasing mode share and to incorporate safety mitigation elements into projects.

### Additional Safety Performance Measures and Targets:

- Reduce the number and rates of fatalities and serious injuries.
  - Target: Conduct Road Safety Audits for a minimum of three high crash locations (MassDOT Top 5% Crash Clusters) per year, including minimum of 1 pedestrian/ walkability audit and one bicycle audit per year. In 2020, four locations were analyzed through Road Safety Audits.
  - Target: Utilize HSIP fund for applicable projects each year and seek to program Statewide HSIP funds when available/ feasible for priority safety related projects. Total of \$2,135,071 Statewide HSIP Funds included in FFY 2023.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Provide and maintain safe fixed route service (e.g., Preventable Accidents per 100K miles).
  - Target: Maintain fixed route service preventable accidents/ 100k miles below 2.0 (FY 2021 is 1.19 from BAT Performance Dashboard).
- Provide and maintain safe demand response service (Preventable accidents/ 100k miles).
  - Target: Maintain demand response service preventable accidents/ 100k miles below 2.0 (FY 2021 is 0.13) (from BAT Performance Dashboard).
- Protect the viability of transportation infrastructure to accommodate emergency response and evacuations.
- Protect transportation system users from safety and security threats.
- Increase number of Safe Routes to School Partner Schools.
  - Target: Increase percentage of SRTS Partner Schools to 85% in 10 years. Currently, 71% of eligible partner schools are partner schools.

### System Preservation Performance (PM2)

**Infrastructure Condition (Pavement, Bridge, and Transit) Goals:** Maintain a highway and transit infrastructure asset systems in a state of good repair; and emphasize the preservation of the existing transportation system. As part of the LRTP development, the MPO utilizes a pavement management system to develop costs and recommended repair for operation, preservation, and maintenance of the federal aid network.

System preservation continues to be a priority for the Old Colony Region MPO because the region's transportation infrastructure is aging. It is also important to improve the resiliency of the region's transportation system to prepare for existing or future extreme conditions, such as sea level rise and flooding.

The Old Colony MPO has chosen to adopt the 2-year (2020) and 4-year (2022) statewide bridge and pavement performance measure targets set by MassDOT. MassDOT was required to adopt a statewide target by May 20, 2018, with MPOs either adopting the statewide target or establishing their own by November 2018. In setting these targets, MassDOT has followed FHWA guidelines by measuring bridges and pavement condition using the 9-point National Bridge Inventory Standards (NBIS); the International Roughness Index (IRI); the presence of pavement rutting; and the presence of pavement cracking. 2-year and 4-year targets were set for six individual performance measures: percent of bridges in good condition; percent of bridges in poor condition; percent of Interstate pavement in good condition; percent of Interstate pavement in poor condition; percent of non-Interstate pavement in good condition; and percent of non-Interstate pavement in poor condition. All the above performance measures are tracked in greater detail in MassDOT's Transportation Asset Management Plan (TAMP).

Targets for bridge-related performance measures were determined by identifying which bridge projects are programmed and projecting at what rate bridge conditions deteriorate. The bridge-related performance measures measure the percentage of deck area, rather than the total number of bridges.

Performance targets for pavement-related performance measures were based on a single year of data collection, and thus were set to remain steady under the guidance of FHWA. These measures are to be revisited at the 2-year mark (2020), once three years of data are available, for more informed target setting.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

MassDOT continues to measure pavement quality and to set statewide short-term and long-term targets in the MassDOT Performance Management Tracker using the Pavement Serviceability Index (PSI), which differs from IRI. These measures and targets are used in conjunction with federal measures to inform program sizing and project selection. Table 1 provides the MassDOT Performance Measures and Targets for NHS Pavements, while Table 2 provides the MassDOT Performance Measures and Targets for NHS Bridges.

The Old Colony MPO will continue to assist MassDOT in striving towards these targets through our project prioritization process and with our evaluation criteria, which considers maintenance and infrastructure an important factor in the selection process.

**Table 1**  
**MassDOT Performance Measures and Targets for NHS Pavements**

<b>Interstate Pavement (FHWA Full Distress)</b>			
<b>Performance Measure</b>	<b>Current Condition (2017)</b>	<b>2-Year Target (2020)</b>	<b>4-Year Target (2022)</b>
% Interstate Pavement in Good Condition	74.2%	70%	70%
% Interstate Pavement in Poor Condition	0.1%	4%	4%
<b>Non-Interstate Pavement (FHWA IRI only)</b>			
<b>Performance Measure</b>	<b>Current Condition (2017)</b>	<b>2-Year Target (2020)</b>	<b>4-Year Target (2022)</b>
% Non-Interstate Pavement in Good Condition	32.9%	30%	30%
% Non-Interstate Pavement in Poor Condition	31.4%	30%	30%

**Table 2**  
**MassDOT Performance Measures and Targets for NHS Bridges**

<b>Performance Measure</b>	<b>Current Condition (2017)</b>	<b>2-Year Target (2020)</b>	<b>4-Year Target (2022)</b>
% Bridges in Good Condition	15.22%	15%	16%
% Bridges in Poor Condition	12.37%	13%	12%

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

MassDOT develops the Transportation Asset Management Plan (TAMP) to address pavement and bridge conditions on the National Highway System (NHS). The TAMP includes information on the NHS Inventory and Performance, Life Cycle Planning and Investment Strategy, Risk Management, and a Financial Plan.

Recipients of public transit funds, which can include states, local authorities, and public transportation operators, are required to establish performance targets for safety and state of good repair, develop transit asset management and transit safety plans, and to report on their progress toward achieving targets. Public transportation operators are directed to share information with MPOs and states so that all plans and performance reports are coordinated. The identified state of good repair performance measures for transit asset management regarding BAT include the following areas: equipment (Percentage of vehicles that have met or exceeded their Useful Life Benchmark (ULB)); rolling stock (Percentage of revenue vehicles within a particular asset class that have met or exceeded their ULB); and facilities (Percentage of facilities within an asset class rated below 3.0 on the FTA Transit Economic Requirements Model scale).

### **Additional System Preservation Performance Measures and Targets:**

- Provide and maintain fixed route and demand response state of good repair.
  - Target: Increase miles between breakdowns with passenger interruption on fixed route to 25,000 (goal) within 10 years (FY 2021 is 78,952) (from BAT Performance Dashboard).
  - Target: Increase miles between breakdowns with passenger interruption on demand response to 30,000 (goal) within 10 years (FY 2021 is 27,904) (from BAT Performance Dashboard).
- Improve bridge conditions.
  - Target: Maintain percentage of bridges categorized structurally deficient below 5%. Currently, four percent of the bridges are categorized as structurally deficient.
- Improve pavement conditions and state of good repair.
  - Target: Achieve 50% of federal-aid eligible roadways in the region with a PCI-based pavement ranking of Good or Excellent within 10 years. In 2016, the pavement management system determined that 36% of the federal-aid eligible roadways were categorized as either Good or Excellent.

**Congestion Reduction Goals:** Achieve a significant reduction in congestion on the NHS; and enhance the integration and mobility of the transportation system, across and between modes, for people and freight. The MPO applies specific criteria in the review of transportation strategies. These criteria are applied to improvements in multimodal accessibility. The LRTP supports these efforts through its goal: “Enhance and Protect Regional Mobility, and Foster Sustainable, Healthy, and Livable Communities.”

### **System Performance Measures (Congestion, Reliability, and Emissions) (PM3)**

Through its goal and objectives for capacity management and mobility, the MPO seeks to maximize the region’s existing transportation system so that both people and goods can move reliably and connect to key destinations. Portions of the Old Colony Region are densely developed, which creates challenges to making major changes to its transportation infrastructure to address access, reliability, and congestion mitigation needs. To determine how well the region’s roadways are performing with respect to mobility, the MPO applies performance measures that gauge the duration, extent, intensity, and reliability (or regularity) of the occurrence of congestion.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

**Table 3**  
**MassDOT System Performance Measures and Targets**  
**Congestion, Reliability, and Emissions**

Performance Measure	Current (2017)	2-Year Target (2020)	4-Year Target (2022)
Level of Travel Time Reliability (LOTTR)	68% Interstate	68% Interstate	68% Interstate
	80% Non-Interstate	80% Non-Interstate	80% Non-Interstate
Truck Travel Time Reliability (TTTR)	1.85	1.85	1.85
Peak Hour Excessive Delay (PHED) (Boston UZA) (Annual hours per capita)	18.31	18.31	18.31
Non-SOV Travel	33.60% (2016)	34.82%	35.46%
Emissions Reductions	Baseline (FFY 2014-2017)	1,622 CO	TBD CO - Springfield
		497.9 Ozone	1.1 Ozone

The Old Colony MPO has chosen to adopt the 2-year (2020) and 4-year (2022) statewide system performance measure targets set by MassDOT. The Old Colony MPO will continue to assist MassDOT in striving towards these targets through our project prioritization process and with our evaluation criteria, which considers maintenance and infrastructure an important factor in the selection process.

Old Colony MPO staff analyzes congestion in the region using the Congestion Management Process (CMP). The CMP is, “a systematic process for managing congestion that provides information on transportation system performance and on alternative strategies for alleviating congestion and enhancing the mobility of persons and goods to levels that meet state and local needs.” The CMP includes consideration of the implementation of strategies that provide the most efficient and effective use of existing and future transportation facilities. This process allows for monitoring transportation systems for congestion, reviewing and endorsing plans by local communities that make up the region, and revising monitoring of strategies and overall plans to account for a dynamic management system. In both metropolitan and non-metropolitan areas, consideration needs to be given to strategies that reduce single occupancy vehicle (SOV) travel and improve existing transportation system efficiency. Documentation of the operational Congestion Management Process occurs during the Transportation Management Area (TMA) Certification Review conducted every four (4) years. The most recent Transportation Planning Certification Review Report was issued in February 2020. The Transportation Planning Certification Review Report - February 2020 report is available for download [here](#).

When making investments in the region’s transportation system, the Old Colony Region MPO seeks to invest in projects and programs that reduce greenhouse gases (GHGs) and other transportation related pollutants, and otherwise minimize negative environmental impacts. If climate change trends continue as projected, the conditions in the Old Colony Region will include a rise in sea level coupled with storm-induced flooding, and warmer temperatures that would affect the region’s infrastructure, economy, human health, and natural resources. Massachusetts is responding to this challenge by taking action to reduce the GHGs produced in the state, including those generated by the transportation sector. To that end, Massachusetts passed its Global Warming Solutions Act (GWSA), which requires reductions of GHGs

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

by 2020, and further reductions by 2050, relative to 1990 baseline conditions. To meet GWSA requirements, the MPO works with MassDOT and other stakeholders to anticipate the GHG impacts of projects included in the TIP.

### Additional System Performance Measures and Targets

- Promote Mode Shift by increasing use of transit, carpool/ vanpool, and non-motorized transportation modes such as bicycling and walking.
  - Target: Achieve 15% of commuters in the Old Colony region using healthy (those that reduce GHG and/or encourage physical activity) transportation modes such transit, walking, and bicycling, etc.) within 10 years (10.5% of surveyed commuters in Old Colony Region were using transit, walking, or bicycling in the 2011 Massachusetts Travel Survey).
- Reduce traffic congestion and improve level of service and access management.
  - Target: Monitor congestion levels on federal-aid eligible highway network annually and highlight corridors with volume to capacity (v/c) ratios of 0.8 or greater for targeted study and/or improvements.
- Maintain and improve transit system efficiency and capacity.
  - Target: Achieve average on-time ranking on fixed-route system of 98% by 2040 (from BAT Performance Dashboard). FY 2021 actual on-time performance is 99.91%.
- Increase automobile and bicycle parking capacity and usage at transit stations and commuter lots.
- Eliminate bottlenecks on limited access highways and on the freight network.
- Improve and expand human service coordination, mobility, and accessibility for all modes.
- Reduce number and size of gaps in the ADA accessible sidewalk network.
- Increase use of traffic signal priority (hold current green light) for transit vehicles and traffic signal pre-emption for emergency vehicles (override programmed phasing to provide approaching emergency vehicles a green light).
- Monitor utilization and congestion levels at commuter rail and park & ride parking facilities.
  - Target: Record utilization data twice annually and report data to MassDOT. In FFY 2021, utilization was recorded twice.
- Improve accessibility for all modes to all users.
  - Target: 50% of communities with Complete Streets policies within 10 years. Currently, 88% of communities in the region have an approved Complete Street Policy.
  - Target: 50% of available Transportation Improvement Program funding allocated to projects that significantly improve bicycle and pedestrian mobility.

**System Reliability Goals:** Improve the efficiency of the surface transportation system; and promote efficient system operation and management. The Old Colony MPO supports Operation and Management Strategies (O and M) for both the transit and highway networks. The LRTP supports this planning factor through this performance measure: “Maintaining and preserving transit, highway, and bridge infrastructure.” As part of the LRTP development, the MPO utilizes a pavement management system to develop costs and recommended repair for operation, preservation, and maintenance of the federal aid network. The Old Colony MPO and BAT are coordinating to implement a performance-based planning process. The MPO integrates BAT’s Transit Asset Management (TAM) Plan into its planning process that prioritizes investments that meet regional performance targets for State of Good Repair. Every agency must develop a transit asset management (TAM) plan if it owns, operates, or manages capital assets used to provide public transportation and receives federal financial assistance under 49 U.S.C. Chapter 53 as a recipient or subrecipient. Each transit provider must designate an Accountable Executive (49 CFR 625.5) to ensure appropriate resources for implementing the agency's TAM plan and the Transit Agency Safety

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

Plan. The identified state of good repair performance measures for TAM regarding BAT include the following areas: equipment (Percentage of vehicles that have met or exceeded their Useful Life Benchmark (ULB)); rolling stock (Percentage of revenue vehicles within a particular asset class that have met or exceeded their ULB); and facilities (Percentage of facilities within an asset class rated below 3.0 on the FTA Transit Economic Requirements Model scale). Additionally, the Old Colony TIP contains operation and maintenance costs for the federal aid network and BAT.

### System Reliability Performance Measures and Targets

- Provide and maintain fixed route reliability: Miles between breakdowns w/ passenger interruption.
  - Target: Achieve average of 25,000 miles between breakdowns with passenger interruptions by 2040 (from BAT Performance Dashboard). FY 2021 actual is 78,952 miles between breakdowns with passenger interruptions.
- Provide and maintain demand response reliability: Miles between breakdowns w/ passenger interruption.
  - Target: Achieve average of 30,000 miles between breakdowns with passenger interruptions by 2040 (from BAT Performance Dashboard). FY 2021 actual is 27,904 miles between breakdowns with passenger interruptions.
- Provide and maintain highway network travel time reliability.
- Protect and strengthen transportation systems vulnerable to climate change through identification of at-risk transportation assets and development of protection measures for each category of asset.

**Freight Movement and Economic Vitality Goals:** Improve the nation’s freight network, strengthen the ability of communities to access national and international trade markets, and support regional economic development; and support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency. The MPO applies specific criteria in the review of transportation strategies. These criteria are applied to changes of delay and emissions. Reduction in traffic delay has a direct consequence on economic vitality both through the timely arrival of commuters and goods and reduction in fuel expenses and losses due to air pollution. The LRTP directly supports these efforts through the goal: “Promote Policies that Ensure Economic Vitality and Sustainability.” The MPO directly supports regional productivity through its economic development mission manifested in the Regional Policy Plan, including support of the federally approved Old Colony Comprehensive Economic Development Strategy priority projects.

### Freight Movement and Economic Vitality Performance Measures

- Reduce delay along identified freight routes.
- Improve safety along freight routes.
- Mitigate and improve key arterials (such as Route 106) and limited access highways (Routes 3 and 24) bottlenecks that inhibit efficient freight movement by truck.
- Identify opportunities for promoting intermodal freight movement.
- Increase access to major employment centers.
- Increase viaduct clearance to improve freight movement, emergency response, and reduce delay.
- Plan and prioritize transportation investments that serve targeted development areas.

**Environmental Sustainability Goals:** Enhance the performance of the transportation system while protecting and enhancing the natural environment; promote energy conservation; improve the quality of life; and promote consistency between transportation improvements and State and local planned growth

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

and economic development patterns. The LRTP and therefore the TIP includes a focus on addressing Climate Change. Where appropriate, TIP projects will include assessments of vulnerabilities and negative risks that climate change effects or extreme weather events pose to the region's transportation infrastructure. These vulnerabilities and risks will be seriously considered when planning future improvements. Where appropriate, TIP projects include adaptation strategies that will enable the region to implement improvements appropriately. The reduction of greenhouse gas emissions (GHG) remains an important goal in addressing climate change.

### Environmental Sustainability Performance Measures and Targets

- Minimize negative environmental impacts of the transportation system.
  - Target: Utilize Congestion Mitigation and Air Quality (CMAQ) Program funding for 100% of all applicable projects.
- Reduce greenhouse gas emissions and ground level ozone (NOx and VOCs) by all transportation modes.
  - Target: 50% of TIP projects reduce GHGs while also reducing negative impacts on the natural environment (such as improved storm water management or the addition of green space). In the FFY 2022-2026 TIP, 83.33% of the road projects, and 100% of the bus replacement projects had measurable reductions in GHGs. Staff conducts greenhouse gas (GHG) impact assessments using the Congestion Mitigation and Air Quality Spreadsheet to calculate the change in GHGs.
- Increase the usage of clean alternative fuels and recyclable material for new transportation infrastructure.
- Increase coordination of transportation and housing programs to promote affordable housing near transit.
- Develop and support transportation policies that support healthy lifestyles.
- Support investments that clean up brownfields and avoid investments that increase pressure to develop greenfields.
- Support livable communities and smart growth development patterns through the creation of a balanced multi-modal transportation system.

**Reduced Project Delivery Delay Goal:** Reduce project costs; promote jobs and the economy; and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agency work practices.

### Reduced Project Delivery Delay Performance Measures and Targets

- Continue to utilize transportation evaluation criteria in screening potential TIP projects.
  - Target: 100% of all potential projects undergo initial evaluation to determine if project is realistic, viable, and implementable.
- Enhance screening and evaluation of projects to determine Year 1 readiness for TIP.
  - Target: 100% of potential Year 1 TIP projects are screened for implementation readiness. In the FFY 2022-2026 TIP, 100% of Year 1 projects were screened for readiness.
  - Target and Performance Measure: At least 80% of Year 1 TIP Projects are advertised. In the FFY 2022-2026 TIP, 100% of Year 1 projects are on schedule to be advertised.
- Continue to maintain annual participation at TIP Day with MassDOT.
  - Target: 100% attendance and participation at TIP Day. One hundred percent attendance and participation at TIP Day has occurred since its inception.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Target: At 25% design stage, work with stakeholders on 100% of potential projects to determine Right-of-Way (ROW), environmental permitting, and other potential challenges to project development and implementation.
- Reduce time of transit contracting.

**Resiliency and Reliability of the Transportation System Goals:** Improve the resiliency and reliability of the transportation system; reduce or mitigate stormwater impacts of surface transportation; and promote efficient system operation and management.

### Resiliency and Reliability Performance Measures and Targets

- Provide and maintain fixed route reliability: Miles between breakdowns w/ passenger interruption.
  - Target: Achieve average of 25,000 miles between breakdowns with passenger interruptions by 2040 (from BAT Performance Dashboard). FY 2021 actual is 78,952 miles between breakdowns with passenger interruptions.
- Provide and maintain demand response reliability: Miles between breakdowns w/ passenger interruption.
  - Target: Achieve average of 30,000 miles between breakdowns with passenger interruptions by 2040 (from BAT Performance Dashboard). FY 2021 actual is 27,904 miles between breakdowns with passenger interruptions.
- Provide and maintain highway network travel time reliability.
- Protect and strengthen transportation systems vulnerable to climate change through identification of at-risk transportation assets and development of protection measures for each category of asset.

The Old Colony MPO supports Operation and Management Strategies (O & M) for both the transit and highway networks. The LRTP supports this planning factor through this performance measure: “Maintaining and preserving transit, highway, and bridge infrastructure.”

**Travel and Tourism - Enhance Travel and Tourism Goals:** The Old Colony MPO is working on efforts to enhance travel and tourism through the LRTP and TIP. Opportunities to monitor, analyze, and develop recommendations will be undertaken.

### Transit System Asset (TAM) Condition Performance Measures and Targets

Table 4 lists a set of federally required infrastructure condition performance measures for transit systems along with BAT’s Performance Targets. These transit asset management (TAM) measures, which focus on a specific subset of all transit assets, were established in the FTA’s TAM Rule. Brockton Area Transit presented this information along with supporting documentation to the Old Colony MPO in September 2020. The Old Colony MPO has adopted BAT’s FY 2021 Brockton Area Transit Authority Transit Asset Management (TAM) State of Good Repair Targets in their entirety and as their own and for the Old Colony Region, in accordance with the certified 3C Transportation Planning Process. The Old Colony MPO will continue to assist BAT in striving towards achieving these targets through our project prioritization process and with our evaluation criteria, which considers asset condition an important factor in the selection process. Within the 2022-2026 Transit TIP, projects include the purchase of support vehicles and new buses (35’ & 40’). By purchasing the new support vehicles and buses, BAT will maintain their rolling stock in excellent condition and meet the performance targets within the TAM Plan.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

**Table 4  
Brockton Area Transit Authority Performance Measures and Targets**

Performance Targets by Asset Category						
Category	Class	Metric	Performance Target for FY 2021	Total Number of Vehicles	# of Vehicles that exceed ULB - FY 2020	% of Fleet that exceeds ULB - FY 2020
Rolling Stock	Buses	X% of fleet that exceeds default ULB of 14	16.00%	46	1	2.17%
	Cutaway Buses	X% of fleet that exceeds default ULB of 10	30.00%	4	4	100.00%
	Vans	X% of fleet that exceeds default ULB of 8	20.00%	58	10	17.24%
Equipment	Non-Revenue Service Vehicle	X% of non-revenue service vehicles that exceeds default ULB of 8	35.00%	3	1	33.33%
	Non-Revenue Service Truck	X% of non-revenue service vehicles that exceeds default ULB of 8	40.00%	8	3	37.50%
Facilities	Admin/Maintenance Facility	X% of facilities rated under 3.0 on Term scale	0.00%	3	0	0.00%

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

FTA defines ULB as “the expected lifecycle of a capital asset for a particular transit provider’s operating environment, or the acceptable period of use in service for a particular transit provider’s operating environment.” For example, FTA’s default ULB value for a bus is 14 years. FTA’s Transit Economic Requirements Model (TERM) scale, which pertains to the facilities measure, is a rating system that describes asset condition. The scale values are 1 (poor), 2 (marginal), 3 (adequate), 4 (good), and 5 (excellent). Because each measure is intended to represent the share of transit assets that are not in a state of good repair, the goal is to minimize the value for all four measures. FTA grantees, including transit agencies and agency sponsors, such as MassDOT, are required to develop targets for these TAM measures each fiscal year. MPOs, in turn, are required to set targets for their regions. BAT submitted agency-level targets for state fiscal year (SFY) 2021 (July 2020 through June 2021) to the Old Colony MPO. Their targets reflect the most recent data available on the number, age, and condition of their assets, and their expectations and capital investment plans for improving these assets during SFY 2021.

### Public Transit Agency Safety Plan (PTASP) Performance Measures and Targets

The Public Transportation Agency Safety Plan (PTASP) details the safety processes and procedures for the Brockton Area Transit Authority (BAT). This plan utilizes existing agency safety practices and best practices to be implemented to meet the new regulation set in 49 CFR Part 673 of the federal guidelines and was provided to Old Colony Planning on September 15, 2020.

The PTASP includes formal documentation to guide the agency in proactive safety management policy, safety risk management, safety assurance, and safety promotion. The goal is to provide management and labor a comprehensive, collaborative approach to managing safety. The plan includes the process and schedule for an annual review to evaluate the safety performance measures and update processes to continuously improve the organization’s safety practices.

BAT has developed and approved performance targets based on the safety performance measures established under the National Public Transportation Safety Plan. The targets in Table 5 are based on the review of the previous five years of BAT’s safety performance data.

**Table 5  
Brockton Area Transit Authority Safety Performance Measures and Targets**

<b>Safety Performance Targets</b>							
<b>Mode of Transit Service</b>	<b>Fatalities (Total)</b>	<b>Fatalities (Rate)</b>	<b>Injuries (Total)</b>	<b>Injuries (Rate)</b>	<b>Safety Events (Total)</b>	<b>Safety Events (Rate)</b>	<b>System Reliability (Miles between Major Failure)</b>
Fixed Route	0	0	10	7.6	6	4.6	20,000
Demand Response	0	0	4	5.9	4	5.9	30,000

On November 17, 2020, the Old Colony MPO adopted BAT’s Safety Performance Measures and Targets in their entirety and as their own and for the Old Colony Region, in accordance with the certified 3C Transportation Planning Process. The Old Colony MPO will continue to assist BAT in striving towards achieving these targets through our project prioritization process and with our evaluation criteria, which

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

considers safety an important factor in the selection process. Similar to BAT's TAM Plan, new bus and support vehicle purchases included in the 2022-2026 Transit TIP is also anticipated to help reach the safety targets listed in the PTASP. The new buses and support vehicles will replace the older vehicles and they are expected to be more reliable and safer on the roadways. In addition, the purchasing of support equipment and associated capital maintenance item will assist in the repair of the older vehicles.

Consistent with U.S. Department of Transportation's strategic objectives for the Surface Transportation Program, the FFY 2022 UPWP emphasizes the planning emphasis areas of the FAST Act Implementation, Regional Models of Cooperation, and Ladders of Opportunity.

- **FAST Act Implementation** - The Old Colony MPO continues to develop its performance management approach to transportation planning and programming. Performance-based planning and programming includes using transportation performance measures, setting targets, reporting performance, and programming transportation investments directed toward the achievement of transportation system performance outcomes. Appropriate UPWP work tasks include working with local planning partners to identify how to implement performance-based planning provisions such as collecting performance data, selecting, and reporting performance targets for the metropolitan area, and reporting actual system performance related to those targets. Such activities are included in the FFY 2022 UPWP through tasks such as the Management Systems (Congestion, Pavement, and Safety), and the Performance Management efforts.
- **Regional Models of Cooperation** - The Old Colony MPO seeks to ensure a Regional Approach to Transportation Planning by Promoting Cooperation and Coordination across MPO and Transit Agency Boundaries. To improve the effectiveness of transportation decision making, the Old Colony MPO thinks beyond traditional borders and conducts a coordinated approach to transportation planning. A coordinated approach supports common goals and capitalizes on opportunities related to project delivery, congestion management, safety, freight, livability, and commerce across boundaries. Improved multi-jurisdictional coordination by MassDOT, MPOs, and providers of public transportation can reduce project delivery times and enhance the efficient use of resources, particularly in urbanized areas that are served by multiple MPOs. During FFY 2022, the Old Colony MPO will continue to coordinate planning activities within the Boston Urbanized Area (UZA) with MassDOT and the common MPOs and seek to update the Boston UZA Coordination Memorandum of Understanding (MOU) to ensure that there are effective processes for cross-jurisdictional communication to improve collaboration, policy implementation, technology use, and performance management.
- **Ladders of Opportunity** - The Old Colony MPO, as part of the transportation planning process, identifies transportation connectivity gaps in accessing essential services. Essential services include employment, health care, schools/education, and recreation. The FFY 2020 UPWP includes efforts to develop and implement methods to identify gaps in the connectivity of the transportation system and developing infrastructure and operational solutions that provide the public, especially the traditionally underserved populations, with adequate access to essential services. As such, examples undertaken in previous UPWPs include Active Transportation Study (assessing the connectivity and safety and condition of pedestrian and bicycle facilities; and evaluating compliance with Americans with Disabilities Act, particularly around schools, concentrations of disadvantaged populations, social services, medical, and transit facilities), the Congestion Management Process, the Main Street Brockton Corridor Study (Brockton), the Route 53 Corridor Study (Hanover, Pembroke, Duxbury, and Kingston), the Route 106 Corridor Study

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

(Kingston, Plympton, Halifax, East Bridgewater, and West Bridgewater), the Route 123 Corridor Study (Abington and Brockton), and the Route 139 Corridor Study (Hanover).

This year's UPWP efforts focus on the development of Road safety Audits at multiple locations, the Freight Planning and Action Plan, and the High Priority Corridor Screening Assessment, the FAST Act Performance Management and related Performance Measures and Target development, continued development of the Regional Travel Demand Model (TransCAD), operation of the Congestion Management Process, operation of the Safety Management System, operation of the Pavement Management System, and the development of the Transportation Improvement Program. Attention is also focused on the regional multi-modal data surveillance program (including counting of bicycles and pedestrians, developing an inventory of gaps in the bicycle network, and developing an index of regional bikeability), maintaining regional databases, adjusting, and amending certification documents as needed, and implementing the management systems. OCPC continues to integrate the Geographic Information Systems into various tasks and plans undertaken. The safety of our transportation network continues to be a priority, and a key consideration in the selection and prioritization of future projects. Tasks within the UPWP are consistent with the goals of the LRTP. As an example, the LRTP supports efforts to reduce congestion, improve safety, and develop capital projects that represent an efficient expenditure of public dollars. Such efforts are addressed in this UPWP under multiple tasks that include the Management Systems of Congestion, Pavement, and Safety, along with the TIP.

Federal transportation legislation continues to prioritize the concept of Sustainability and Livability within the transportation planning process. This concept is addressed in the Long-Range Transportation Plan, and in the Active Transportation Study. Beyond those efforts, one method for measuring the sustainability of a highway project is to assess the project against existing best practices. FHWA has developed and released a web-based tool known as the Infrastructure Voluntary Evaluation Sustainability Tool (INVEST). As such, the Old Colony MPO will continue to consider sustainability and livability and seek to utilize the INVEST Tool during the implementation of the FFY 2022 UPWP.

Public participation continues to be a vital element of the transportation planning process. The encouragement of participation and provision of meaningful access to all local citizens in metropolitan transportation planning is one of the most important goals of the "3C" (continuing, cooperative, and comprehensive) process. Community and transit representatives of the Old Colony Joint Transportation Committee (JTC) typically meet monthly on the first Thursday to discuss transportation investments and issues of regional importance. The Old Colony MPO meets several times per year to discuss and coordinate transportation planning issues, and to review and endorse certification documents. A Public Participation Program (PPP) was developed to solicit input to the various tasks and programs undertaken. This process will continually be reviewed and refined, as necessary. During FFY 2021, the PPP will be reviewed and updated consistent with the recommendations include in the recent Transportation Planning Certification Review.

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## 1.2 TITLE VI AND THE AMERICANS WITH DISABILITIES ACT (ADA)

Title VI of the 1964 Civil Rights Act, Executive Order 12898, Executive Order 13166, and Executive Order 13330

### Federal “Title VI/ Nondiscrimination” Protections

The Old Colony MPO operates its programs, services, and activities in compliance with federal nondiscrimination laws including Title VI of the Civil Rights Act of 1964 (Title VI), the Civil Rights Restoration Act of 1987, and related statutes and regulations. Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of **race, color, or national origin** (including **limited English proficiency**), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance. Related federal nondiscrimination laws administered by the Federal Highway Administration, the Federal Transit Administration, or both prohibit discrimination based on **age, sex, and disability**. These protected categories are contemplated within the Old Colony MPO’s Title VI Programs consistent with federal interpretation and administration. Additionally, the Old Colony MPO provides meaningful access to its programs, services, and activities to individuals with limited English proficiency, in compliance with U.S. Department of Transportation policy and guidance on federal Executive Order 13166.

### State Nondiscrimination Protections

The Old Colony MPO also complies with the Massachusetts Public Accommodation Law, M.G.L. c 272 §§ 92a, 98, 98a, prohibiting making any distinction, discrimination, or restriction in admission to or treatment in a place of public accommodation based on **race, color, religious creed, national origin, sex, sexual orientation, disability, or ancestry**. Likewise, the Old Colony MPO complies with the Governor’s Executive Order 526, section 4 requiring all programs, activities, and services provided, performed, licensed, chartered, funded, regulated, or contracted for by the state shall be conducted without unlawful discrimination based on **race, color, age, gender, ethnicity, sexual orientation, gender identity or expression, religion, creed, ancestry, national origin, disability, veteran's status** (including Vietnam-era veterans), or **background**.

Executive Order 12898, dated February 11, 1994, expands upon Title VI, requiring each federal agency to achieve environmental justice by identifying and addressing any disproportionately high adverse human health or environmental effects, including interrelated social and economic effects, of its programs, policies, and activities on minority or low-income populations.

On April 15, 1997, the U.S. Department of Transportation issued its Final Order to Address Environmental Justice in Minority Populations and Low-Income Populations. Among other provisions, this order requires programming and planning activities to:

- Explicitly consider the effects of transportation decisions on minority and low-income populations.
- Provide meaningful opportunities for public involvement by members of minority and low-income populations.
- Gather (where relevant, appropriate, and practical) demographic information such as the race, color, national origin, and income level of the populations affected by transportation decisions.
- Minimize or mitigate any adverse impact on minority or low-income populations.

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

Executive Order 13166, dated August 11, 2000, is intended to ensure compliance with Title VI of the Civil Rights Act of 1964 by specifically calling for improved access to federally conducted and federally assisted programs and activities for persons who, because of national origin, have limited English proficiency (LEP). To comply with the order, MPOs are required to develop and implement a system by which LEP persons can meaningfully participate in the transportation planning process.

FTA Environmental Justice Policy Guidance For Federal Transit Administration Recipients Circular 4703.1 (2012) provides recommendations on how to fully engage environmental justice populations in the public transportation decision-making process; how to determine whether environmental justice populations would be subjected to disproportionately high and adverse human health or environmental effects as a result of a transportation plan, project, or activity; and how to avoid, minimize, or mitigate these effects.

FTA Title VI Circular to 4702.1B (2012) provides guidance to grantees on how to comply with Title VI regulations, as well as to ensure grantees provide meaningful language access to persons who are limited English proficient.

### **The Americans with Disabilities Act (ADA)**

Title III of the Americans with Disabilities Act requires all transportation projects, plans, and programs to be accessible to people with disabilities. At the MPO level, this means that public meetings must be held in accessible places and MPO materials must be made available in accessible formats.

### **1.3 FUNDING SOURCES**

The period covered by each contract described in this UPWP by funding source is as follows:

- FHWA PL/ MassDOT; FTA 5303/ MassDOT: October 2021 through September 2022
- BAT: July 2021 through June 2022

For the contract beginning October 1, 2021, the FHWA PL (\$829,182) and FTA 5303 funds (\$130,019) will be combined into one appropriation to MassDOT to fund Old Colony MPO activities. FHWA and FTA will provide 80% of the funds (\$767,361), while MassDOT will provide the 20% match (\$191,840). MassDOT will annually work with the Old Colony MPO through a single contract that combines these two federal funding sources.

### **1.4 ADMINISTRATIVE MODIFICATION AND AMENDMENT PROCEDURES**

Unified Planning Work Programs, no matter how well planned, may need to be modified from their original MPO endorsed form. There are different actions that may be taken to modify the endorsed UPWP. These actions vary, depending on the extent of the modification, and have different impacts on the UPWP. All proposed administrative adjustments and amendments are presented to the MPO for consultation prior to endorsement. The procedures for modifying the UPWP are:

#### **UPWP Amendment**

A UPWP Amendment is the most extensive change procedure that a UPWP may undergo. A UPWP Amendment requires the proposed change to undergo a twenty-one (21) day public review period and requires MPO endorsement. However, the Old Colony MPO, at their discretion, may vote to abbreviate the public comment period under what they consider extraordinary circumstances beyond the MPO's control. Examples of actions that require an Amendment include:

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Addition or deletion of a UPWP task or sub-task;
- Major changes to UPWP task descriptions, activities, and other information;
- Funding increase above the originally approved UPWP overall budget;
- Funding transfers between tasks equal to or greater than 25% of the UPWP task budget; and
- Funding increase or decrease equal to or greater than 25% of the UPWP task budget.

### UPWP Administrative Modification (Adjustment)

A UPWP Administrative Modification (Adjustment) is a minor Amendment. The Adjustment procedure requires an administrative action, consultation with the MPO, and MassDOT-OTP approval through the utilization of a Budget Reallocation Request Form. Examples of actions that require an Adjustment include:

- Minor changes to UPWP task descriptions, activities, and other information;
- Funding transfers between UPWP tasks less than 25% of the UPWP task budget; and
- Funding increase or decrease less than 25% of the UPWP task budget.

### 1.5 GEOGRAPHIC DISTRIBUTION OF MAJOR UPWP FUNDED STUDIES

The Old Colony Planning Council staff monitors the geographic distribution of UPWP funded studies over time. Table 5 provides the distribution of Major UPWP Studies over the period of 2004 through 2021. To assist with providing context to the distribution, included in the table is 2010 Population and 2010-2014 Median Household Income. For the purposes of the analysis, a Major UPWP Study is defined as a study programmed in the UPWP under Element 3000 - Short Range and Long-Range Transportation Planning Activities. Major studies under this element typically involve the in-depth study and analysis of roadway corridors within a community or may include a roadway corridor that spans multiple communities. Major UPWP studies also may include studies such as region wide bicycle and pedestrian connectivity studies, climate change transportation studies, and priority development areas/ priority preservation areas studies.

From an examination of the distribution of Major UPWP Studies from 2004 through 2020, the following observations may be made:

- There are higher concentrations of studies within the more populated urban areas (i.e., Brockton and Stoughton). Such concentrations tend to follow areas with elevated levels of congestion and crash clusters.
- The towns of Bridgewater, Plymouth, and Stoughton have higher concentration of studies. A potential explanation for such a trend is that these populous communities feature proximity to limited access highways, commuter rail, and academic institutions of higher learning. Such features, while beneficial in many respects, also feature higher pedestrian, bicyclist and vehicle trips, and the need for additional multimodal and infrastructure.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### **TASK 1000 - MANAGEMENT AND SUPPORT OF THE PLANNING PROCESS AND CERTIFICATION ACTIVITIES**

To properly support and effectively control the transportation planning activities of the Old Colony Metropolitan Planning Organization, program support activities must be undertaken. These tasks allow for the functioning and the continued certification of the Old Colony MPO in accordance with the Commonwealth of Massachusetts and U.S. DOT requirements.

Task 1100 - 3C Program Support

Task 1200 - Unified Planning Work Program (UPWP)

Task 1300 - Public Participation Program (PPP)

Task 1400 - Transportation Improvement Program (TIP)

Task 1500 - Title VI and Environmental Justice (EJ)

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 1100 - 3C PROGRAM SUPPORT

### OBJECTIVE:

To manage, support, and provide the capability to maintain a Comprehensive, Cooperative, and Continuing Transportation Planning and Programming Process at all levels in conformance with applicable Federal and State requirements and guidelines. Tasks include preparation and presentation of transportation plans, programs studies; Technical assistance and information related to transportation planning to the public, local, state and federal agencies; Review and updates to memorandums of understandings, and agreements; Timely response to planning studies and initiatives by local, state, and federal agencies; and Contract administration.

### PREVIOUS WORK:

- Administration of Massachusetts Department of Transportation, Federal Highway Administration, Federal Transit Administration, Brockton Area Transit, Greater Attleboro-Taunton Transit Authority, and Executive Office of Energy and Environmental Affairs contract needs.
- Assistance with statewide transportation planning programs.
- Distribution of information on federal and state rules and regulations.
- Input and support for economic and community development programs.
- Maintenance and federal certification of a viable and ongoing 3C Transportation Planning Process.
- Maintenance and operation of the Old Colony Metropolitan Planning Organization and Old Colony Joint Transportation Committee.
- Preparation of 3C certification documents.
- Provision of ongoing technical assistance to departments, agencies, authorities, and communities.
- Support for public participation and private involvement in the 3C process, Federal Highway Administration, Federal Transit Administration, and air-quality programs.

### PROCEDURES:

1. Provide administrative and technical support to the 3C regional planning process; Provide community liaison activities and short term planning assistance to communities on transportation planning matters; Review Federal and State transportation programs, guidelines, circulars and manuals, plans and regulations as may be required or necessary; Provide for and support public and private involvement in the 3C Planning Process; and Participate in informational programs on transportation, air quality, hazardous waste, energy conservation, accessibility, casinos/ gaming, and other planning.
2. Provide and maintain coordination for Old Colony MPO activities including the preparation and presentation of certification documents, transportation plans and programs developed through the public participation process. Develop documents necessary for the certification reviews and the self-certification process; and Maintain all Old Colony MPO documentation records, and files.
3. Provide for participation of staff in educational development programs and conferences with coordination of BAT, GATRA, FHWA, FTA, MassDOT, MBTA, and other agencies as needed.
4. Provide inter-agency coordination with other transportation agencies, including FHWA, FTA, MassDOT, MBTA, RPAs, and RTAs on an ongoing, regular basis; and Coordinate highway-planning activities with local officials and MassDOT District 5.
5. Provide financial management of the transportation planning contracts with FHWA/ MassDOT, BAT, GATRA, and MBTA, and staff supervision and work assignments; and Prepare applications, contracts,

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

time sheets, progress reports, invoices, request forms, and perform other contract administration activities necessary to the conduct of the 3C Transportation Planning Process.

6. Follow up on recommendations of previous transportation planning studies by attending and participating in public meetings or making presentation of study results.
7. Coordinate planning activities within the Barnstable Urbanized Area and the Boston Urbanized Area with MassDOT, the common MPOs, and the providers of public transportation to ensure that there are effective processes for cross-jurisdictional communication to foster collaboration, policy implementation, technology use, and performance management.
8. Review and implement Transportation Planning Certification Review recommendations. Implementation of recommendations will be guided by the Action Plan and reported on quarterly.

### PRODUCTS:

Maintenance and federal certification of a viable 3C Transportation Planning Process and Old Colony MPO operation; Support of community development and environmental planning; Memorandums of Understandings reviews including 3C Memorandum of Understanding review and amendments; Information on FAST Act and the Clean Air Act (CAA) as needed; Consideration and implementation of MPO certification review recommendations; Inter-agency meetings, memorandum and correspondence on various aspects of the transportation planning program; Attendance and participation in Transportation Program Managers Group; and Administration of contracts and invoices.

### SCHEDULE:

Management and support activities to be carried out on a continuing basis throughout the program year.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$48,000	\$12,000					\$60,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 1200 - UNIFIED PLANNING WORK PROGRAM (UPWP)

### OBJECTIVE:

To develop, endorse and maintain an annual UPWP that provides a description of the overall transportation related planning activities that are ongoing and anticipated in the region, during the forthcoming year and include funding sources and agency responsibility. Endorsement of this document shall be consistent with the procedures documented in the Public Participation Plan.

### PREVIOUS WORK:

UPWPs prepared and endorsed annually by the Old Colony MPO; Monthly Invoices; and Quarterly Progress Reports, and Year End Progress Reports.

### PROCEDURES:

1. Maintain the current UPWP and prepare related invoicing; and Review and adjust and/ or amend the UPWP when necessary and circulate revisions to the Old Colony MPO, Old Colony JTC, OCPC, and other appropriate agencies for review, adjustments, and/ or endorsement, as appropriate.
2. Follow the Old Colony MPO endorsement process for amendments. Other revisions to the Unified Planning Work Program, such as changes in the existing level of effort or funding of a specific task or the addition/ deletion of a task and procedures within the current contract/ grant programs, etc., will be made as required throughout the program year upon mutual agreement of the agencies involved. Such revisions/ adjustments will be conducted by the OCPC staff and distributed to the appropriate agencies, as appropriate. These revisions/ adjustments require formal Old Colony MPO consultation.
3. Develop the FFY 2023 UPWP for the Old Colony region covering the upcoming federal fiscal year. The UPWP will be developed in conformance with the latest federal and state regulations and guidelines. The UPWP describes transportation, air quality and transportation related planning activities anticipated within the region during the upcoming year. The staff will prepare the UPWP in coordination with the Old Colony JTC and submit it in draft version to BAT, GATRA, FHWA, FTA, OCPC, and MassDOT for public review and comment. The Old Colony MPO will endorse the final document by July 2022.

### PRODUCTS:

Maintain the current UPWP and prepare invoices; Prepare Quarterly and Year-End Progress Reports; Prepare and submit Adjustments and Amendments, as needed; and Prepare the FFY 2023 UPWP.

### SCHEDULE:

FFY 2023 UPWP to be developed and endorsed by July 2022.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$11,200	\$2,800					\$14,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 1300 - PUBLIC PARTICIPATION PROGRAM

### OBJECTIVE:

To continue to support, implement, review, and amend the Old Colony MPO's Public Participation Plan that was developed and endorsed in 2021. This process is designed to ensure that key public agencies at all levels of government, private and nonprofit organizations and interested citizens will be kept apprised of transportation planning activities and opportunities to participate in the region. The encouragement of participation and provision of meaningful access to the metropolitan transportation planning for the public is one of the most important goals of the "3C" (continuing, cooperative, and comprehensive) process. The Public Participation Plan is reviewed and updated as deemed appropriate.

To provide staff support and actively encourage public and private participation in the 3C planning process through the Old Colony JTC, Old Colony MPO, and OCPC.

To continue monitoring the effectiveness of its public participation program. The process outlines the public outreach procedures that will be followed by the Old Colony MPO in developing and amending the Region's LRTP and TIP.

To conduct outreach activities related to the development of FAST Act performance measures and targets.

### PREVIOUS WORK:

2020 Measures of Effectiveness Report; Old Colony JTC Newsletters; OCPC Newsletters; News Releases and Articles for the Media; OCPC Annual Reports; Old Colony JTC meetings; Old Colony LRTPs; Old Colony TIPs and Implementation; Public Engagement; Title VI Reports; and Public Participation Plans.

### PROCEDURES:

1. Provide a proactive public involvement process that provides complete information, timely public notice, full public access to decisions, and support continuing involvement of the public in the developing Plans, Transportation Improvement Programs, and other documents; and Employ social media as a meaningful and effective communication medium.
2. Provide staff support and actively encourage public and private participation in the 3C planning process through the Old Colony Joint Transportation Committee including:
  - Host meetings of the Old Colony JTC and Old Colony MPO.
  - Work with the Old Colony JTC, working towards expanding and educating the membership.
  - Modify and expand the Transportation Advisory Network (TAN) as appropriate.
  - Maintain and update comprehensive mailing lists of interested groups, local, state, and federal agencies, Old Colony JTC, minority and low-income groups, and individuals who should be informed of regional plans, programs, and accomplishments in comprehensive transportation and environmental planning and development.
  - Ensure early and continuing involvement of the public in the development of plans and other documents. Utilize visualization techniques and publish or announce the availability of plans and/or document for review and comments.
  - Review and evaluate the effectiveness of the public participation plan; identify innovative public involvement techniques and/ or programs that enhance public participation.
  - Implement the public involvement process with particular emphasis on the LRTP and the TIP.
  - Continue to prepare mailings, newspaper announcements, public notices, and public service announcements, as outlined in Old Colony MPO's Public Participation Plan.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Continue to identify under-served and under-represented groups in the Old Colony region, continue to make efforts to reach out, attempt to get them interested, and involved in the transportation planning process. OCPC will continue efforts to broaden public participation especially reaching out to the limited English proficient, minority, and low-income population groups.
  - Provide staff support and actively encourage both public and private minority groups/ agencies participation in the 3C planning process.
- 3. Prepare articles and documentation related to transportation planning including Articles for the OCPC Annual Report, newsletters, website, and other media outlets, as appropriate.
- 4. Address Title VI and Environmental Justice as part of the public participation process and ensure that there is equity in the distribution of transportation resources in the Old Colony region. This process is designed to ensure that public and private minority agencies, organizations, and interested residents will be kept apprised of transportation planning milestones in the region. The encouragement of meaningful participation of local minority groups, organizations, and citizens in metropolitan transportation planning is one of the most important goals of the "3C" process (comprehensive, cooperative, and continuing).
- 5. Present transportation plans and programs (Long Range Transportation Plan, Transportation Improvement Program, Public Participation Plan, and Unified Planning Work Program) developed through the public participation process to the Old Colony MPO for appropriate action.
- 6. Maintain, adjust, and/ or amend the current PPP and ensure that the interested parties and the public are involved in developing outreach procedures and will have opportunities to voice their opinions on these changes once proposed. Endorsement procedures will be conducted in a manner acceptable to the FHWA and FTA.
- 7. Conduct outreach activities related to the development of FAST Act performance measures.
- 8. Prepare Annual Measures of Effectiveness (MOE) Report that qualitatively and quantitatively measures the effectiveness of the public participation process.

**PRODUCTS:**

Measures of Effectiveness (MOE) Annual Report; Old Colony MPO meetings; Old Colony JTC meetings and documents; Old Colony MPO meetings and documents; Website Notices; Legal Notices; Articles in OCPC Annual Report and News Releases; Participation in public meetings; Public Engagement; Newsletters; Outreach activities related to the development of performance measures and thresholds; Maintenance of a viable Public Participation Process; 2022 Old Colony Title VI Report; and Public Participation Plan Amendments, and refinements for the website.

**SCHEDULE:**

To be carried out throughout the program year.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$48,800	\$12,200					\$61,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 1400 - TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

### OBJECTIVE:

To develop and maintain a multi-year, financially constrained, program of transportation improvement projects that is consistent with the Old Colony MPO's LRTP, the State Implementation Plan (SIP), the Environmental Protection Agency's Air Quality Conformity Regulations, and US DOT Planning Regulations. The TIP will include a program of highway and transit projects for FFY 2023-2027. Any project, which is to be implemented, using federal funding, must appear in this document and any project, which is to be implemented in the current fiscal year, must appear in the annual element. Projects and service implemented through the TIP will help to achieve the performance targets for Safety (PM 1), Bridge and Pavement Condition (PM 2), System Performance Measures (PM 3), Public Transportation Agency Safety Plan (PTASP), and Transit Asset Management State of Good Repair.

The FFY 2022-2026 TIP will be maintained, and any amendments will be conducted in accordance with the PPP. The FFY 2023-2027 TIP will be developed and endorsed.

### PREVIOUS WORK:

Transportation Improvement Programs have been developed and endorsed annually; Public Participation Process; Transportation Improvement Program Amendments and Administrative Modifications; Evaluation Criteria Analyses; GHG Tracking and Evaluations; Project Evaluations; Technical Assistance and formulation, implementation, and coordination of TIP Subcommittee; and Preparation of related products.

### PROCEDURES:

1. Develop a program of projects: In developing the FFY 2023-2027 TIP, staff will update the list of all transit, highway, and bridge projects that are expected to require federal and state transportation funds for planning and engineering, construction, or purchase during FFYs 2023-2027. This work will include:
  - All transportation projects or programs that require FHWA or FTA approval.
  - For informational purposes, all projects to be funded with Federal funds other than those from FHWA or FTA.
  - For informational purposes, all projects to be funded with Non-Federal Funds.
2. Provide the following information: The MassDOT identification number; Project description; Transportation Evaluation Criteria Scores; Estimated total cost expressed in year of expenditure dollars; Amount of federal funds proposed to be obligated during each program year; Proposed source of Federal and Non-Federal funds; and Identification of the recipient/ sub recipient and state and local agencies responsible for carrying out the project, and project phase. In addition, the total costs of projects seeking Federal funds in each program year shall not exceed reasonably anticipated Federal funds.
3. Prepare the Draft FFY 2023-2027 TIP. The following tasks and procedures will be performed during the development of the Draft FFY 2023-2027 TIP:
  - Include involvement of the communities, elected officials, and the public through the public participation process.
  - Provide technical assistance to municipalities and transit providers in developing projects and priorities.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Meet with communities, MassDOT District 5, MassDOT, and consultants in developing project information, and utilizing Transportation Evaluation Criteria.
  - Solicit and analyze Congestion Mitigation and Air Quality Projects.
4. The Transportation Improvement Program will also include sections relative to:
    - Funding categories and amounts of federal funding proposed to be obligated during each program year.
    - An Annual Listing of Obligated Projects, programs, and an explanation of any significant delays in the planned implementation of major projects.
    - A description of the transportation evaluation criteria and process for prioritizing projects.
    - Air quality significance and relationship of the TIP, State Transportation Improvement Program, and State Implementation Plan.
    - Results of Greenhouse Gas (GHG) Emission Analyses.
    - A financial plan that compares revenue needs to revenue sources for highway and transit programs.
  5. Public Participation: There will be reasonable public engagement and opportunity for public comment on the Draft FFY 2023-2027 TIP in accordance with the PPP. Public meetings of the JTC and MPO will be held during the TIP development process and both the proposed and approved TIP will be published or otherwise made readily available for informational purposes via various media outlets, and website.
  6. TIP Administrative Modifications/ Amendments: Amendments to the TIP will require Old Colony MPO endorsement. Administrative Modifications to the TIP typically require approval of the Old Colony JTC and notification of the Old Colony MPO.
  8. Conduct public health assessments and consider public health outcomes as part of ongoing planning and performance measures planning.
  9. TIP Endorsement: The TIP will be reviewed and endorsed by the Old Colony MPO. Once endorsed, the TIP will include the required air quality conformity documentation necessary for U.S. DOT and EPA conformity determinations.

**PRODUCTS:**

Maintenance of the FFY 2022-2026 TIP, and Amendments and Administrative Modifications, as needed; Preparation and endorsement of the FFY 2023-2027 TIP.

**SCHEDULE:**

The FFY 2023-2027 TIP will be developed and endorsed by June 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$33,600	\$8,400					\$42,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 1500 - TITLE VI AND ENVIRONMENTAL JUSTICE

### OBJECTIVE:

To ensure that there is equity in the distribution of transportation resources in the Old Colony region. Ensuring that the 3C planning process is accessible to the public, including members of the Title VI, Environmental Justice, and Limited English Proficiency communities is a central federal, state, and regional priority. This process is designed to ensure that public and private minority agencies, organizations, and interested citizens will be kept apprised of and involved in the transportation planning milestones in the region. The encouragement of participation and provision of meaningful access to all local citizens in metropolitan transportation planning is one of the most important goals of the "3C" (continuing, cooperative, and comprehensive) process. The MPO process engages with these populations throughout all transportation planning related activities.

### PREVIOUS WORK:

Old Colony LEP Plan; Old Colony PPP; Old Colony JTC Newsletters; OCPC Newsletters; News Releases and Articles for the Media; OCPC Annual Reports; Website; Old Colony JTC meetings; 2020 LRTP Public Participation Process; TIP and Implementation Process; and Annual Old Colony Title VI Reports.

### PROCEDURES:

1. Ensure that there is equity in the distribution of transportation resources and that there is reasonable access to the planning process, OCPC will continually conduct Title VI and Environmental Justice planning for the Old Colony Region. The planning includes the following:
  - Evaluate the effectiveness of the public participation plan for engaging transportation-disadvantaged communities in the transportation decision-making process.
  - Regional maps using the U.S. Census illustrating where high concentrations of minority and low-income persons are located.
  - Regional maps using the U.S. Census identifying where highway Transportation Improvement Projects are in relation to minority population and low-income areas.
  - Regional maps using the U.S. Census illustrating the existing transit routes, fatal crash locations, pavement conditions, safe routes to school buffers, and future capital transit projects.
  - Examination of mobility issues using the U.S. Census, access to jobs and services, and levels of service for both transit services and automobiles.
  - Promote access to the planning process to those with limited English proficiency by developing and utilizing techniques and strategies such as visualizations, graphics, posters, interpreters, and providing information via ethnic media and community-based organizations.
  - Analyze the outcomes of processes and plans by assessing the geographic distribution of the benefits and burdens of the regional transportation system to protected populations.
2. Provide staff support and actively encourage both public and private minority groups/ agencies/ community-based organizations participation in the 3C planning process through the Old Colony Joint Transportation Committee.

### PRODUCTS:

Title VI and Environmental Justice planning for the Old Colony Region; 2022 Title VI Annual Report; Maintain an outreach contact list of minority groups and community based organizations; Develop maps identifying minority and low-income populations, transit route maps, and maps showing existing and future location of Transportation Improvement Program and Transportation Plan projects; Conduct

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

benefits, burden analysis, and include in TIP; Continue to expand outreach process and methods; Obtain and secure on-call interpreters; and Utilize MassDOT Title VI Tool.

### SCHEDULE:

To be carried out throughout FFY 2022.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$35,200	\$8,800					\$44,000

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

### **TASK 2000 - DATA RECONNAISSANCE, ACQUISITION, AND ANALYSIS ACTIVITIES**

A major requirement of planning is to know what is happening in the real world. Surveillance activities are designed to do just that by gathering data on transportation resources, their use, and demand for their use. This information is used to locate and define problems for further study and analysis, define requirements for plans and designs, develop programming priorities and evaluate the success of projects after implementation.

Task 2100 - Demographic and Land Use Surveillance

Task 2200 - Multi-Modal Data Surveillance and System Monitoring

Task 2300 - System Planning Resource Activities

Task 2400 - Geographic Information System (GIS)

Task 2500 - Management Systems (Congestion, Pavement & Safety), and Travel Demand Modeling

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 2100 - DEMOGRAPHIC AND LAND USE SURVEILLANCE

### OBJECTIVE:

To continue to develop, update, and maintain current demographic and land use information and data to ensure that transportation planning, programming analyses, and forecasting methods are based on the most current information. This includes analyzing social, economic, and land use data, including historic, current, and forecast information, and the development, update, and revision of socioeconomic forecasts, and updated the road inventory for use in refinement of the regional transportation model and the LRTP.

### PREVIOUS WORK:

Population, employment, land use, building permits, build out analyses, Journey to Work data, forecasts, and GIS data analyses; Road Inventory Updates; Regional demographic data book preparations; U.S. Census Participant Statistical Areas Program (PSAP); and MassBuilds project updates.

### PROCEDURES:

1. Review and continue to maintain, update, and develop where appropriate existing demographic files based on the U.S. Census information, and the 2011 Massachusetts Household Transportation Survey.
  - Attend and participate in workshops and courses (U.S. Census, CTPP, etc.) sponsored by FHWA, FTA, MassDOT, Baystate Roads, and other agencies or groups.
  - Develop traffic analysis zones for the travel demand model with the most recent census data, as it becomes available.
  - Develop, update, and revise socioeconomic forecasts for use in refinement of the regional model, Geographic Information Systems, and the Long-Range Transportation Plan.
  - Provide and respond to requests for U.S. Census Data and demographic data.
  - Review and analyze the U.S. Census Data and demographic data.
  - Review, maintain and periodically update physical data and prepare data maps, including land use, zoning, etc.
  - Review, update, and add development projects in MassBuilds.
2. Socio-Economic forecasting
  - Develop, update, and revise socioeconomic forecasts for use in refinement of the regional travel demand model.
  - Obtain the necessary information to revise the population and employment projections based on the U.S. Census, and the 2011 Massachusetts Household Transportation Survey.
3. Monitor changes in local government land use plans and regulations, land use patterns, development projects, trip generations, on and off-site mitigation, and the various associated land use characteristics of the region to update the land use and zonal forecasts, and to use as inputs into the MassBuilds, congestion management process, and mitigation activities.

### PRODUCTS:

Updated Socio-Economic Data Files; Journey-to-Work Data Tables and Reports; Technical assistance regarding the 2020 U.S. Census, and the 2011 Massachusetts Household Transportation Survey; Updates to MassBuilds; Development of Priority Development Areas and Priority Preservation Areas.

### SCHEDULE:

To be carried out throughout FFY 2022.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$16,000	\$4,000					\$20,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 2200 - MULTI-MODAL TRANSPORTATION SYSTEM SURVEILLANCE AND SYSTEM MONITORING

### OBJECTIVE:

To develop and maintain a region-wide, multi-modal transportation system-monitoring program (includes OCPC Program and MassDOT).

To respond to requests for traffic (vehicle, bicycle, pedestrian, and transit) counts from state and municipal officials within the region.

To preserve up-to-date files of traffic - specific data characteristics of the multi-modal transportation system, demand, and its use.

To conduct pedestrian counts, bicyclist counts, vehicle counts, and transit counts, and prepare measures such as levels of service.

### PREVIOUS WORK:

Annual Old Colony Traffic Volume Reports; Maintenance of database of local, state, and other traffic counts, and MS2 upload; Turning movement counts and Travel Time Studies; Collection and analysis of data previously performed for other transportation studies; Speed and vehicle classification studies requested by member communities; Review of studies and reports prepared by agencies and consultants; and MassDOT/ RPA Traffic Count Program (vehicle, bicycle, pedestrian, and transit). In addition, a count program of strategic road/ locations within the region has been developed to provide information for implementation of the regional growth factors, and model inputs, etc.

### PROCEDURES:

1. Undertake a transportation system counting program (vehicle, bicycle, pedestrian, and transit) in coordination with municipal and MassDOT officials including:
  - Conduct bicycle and pedestrian counts, as appropriate.
  - Conduct directional traffic counts as part of the MassDOT Statewide Traffic Coverage Counts, and upload to MS2.
  - Conduct traffic counts using mechanical recorders and conduct manual turning movement counts within the region, and/or as needed for planning purposes.
  - Conduct transit passengers and vehicle counts.
  - Conduct turning movement counts and upload to MS2.
  - Develop bikeability measures and/ or quality of service metrics.
  - Maintain and continue to expand on an ongoing region wide traffic count database for use in monitoring regional VMT growth rate.
  - Maintain interactive traffic count database.
  - Measure levels of service for all modes (vehicle, pedestrian, bicycle, and transit).
  - Prepare reports summarizing the traffic counting activities in the region (includes distribution to MassDOT), as appropriate.
  - Prepare inventory of gaps within the regional bicycle network.
  - Provide maintenance, payments, and replacements of all traffic counters, and traffic counting related equipment, as needed.
  - Purchase equipment and supplies as needed to continue the traffic count program.
  - Verify and calibrate traffic counters according to MassDOT Procedures.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

2. Conduct additional transportation system (vehicle, bicycle, pedestrian, and transit) counts as needed to refine and update the traffic count database for the travel demand model.
3. Undertake travel time and vehicle occupancy study in the Old Colony region as needed for the Regional Transportation Model, the LRTP, and/ or other planning activities.
4. Review, monitor and update the following transportation systems data as needed including:
  - Average Daily Traffic and transportation growth trends and seasonal adjustments (vehicle, pedestrians, bicycles, and transit).
  - Commuter rail parking lots and park and ride facilities (inventory) and utilization study.
  - Traffic crash and crash rate documentation.
  - Traffic control devices.
  - U.S. Census Place of Work and Residence Data.
  - 2011 Massachusetts Household Transportation Survey.
5. Develop and maintain staff awareness of Intelligent Transportation System Technology and promote Intelligent Transportation System solutions in the region and participate in the implementation of Intelligent Transportation System Architectures.

**PRODUCTS:**

Transportation System Counting Program; Bikeability measures and/ or quality of service metrics; Highway Data Displays; speed and classification reports; Turning movement counts; MS2 Upload; Vehicle Occupancy and Travel Time Reports as needed and updated traffic counts on a community/ roadway basis and a data layer of regional counts with Geographic Information System and Commuter Rail Parking Lots and MassDOT Park and Ride Utilization documentation; Replacement, maintenance, and, purchase of traffic counters, equipment, and software; Annual Traffic Volumes Report; Traffic Count Interactive Database; Turning Movement Count Interactive Database; and Traffic Volume Growth/ Decline Rates.

**SCHEDULE:**

To be carried out typically from January to December (weather permitting). Year End Traffic Volume Report to be completed during spring 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$65,600	\$16,400					\$87,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 2300 - SYSTEM PLANNING AND RESOURCE ACTIVITIES

### OBJECTIVE:

To continually improve the region's capability for estimating and evaluating impacts of existing and proposed regional and multi-modal transportation facilities and to provide support for the day-to-day operation of the Transportation Department's computer systems and to expand the utility of the computers to other areas of transportation planning. Additionally, to provide for staff development, training, and their related participation in educational development programs, seminars, conferences, and courses.

### PREVIOUS WORK:

Staff development and participation in courses, seminars, and workshops (on-going project); Use of TransCAD, Geographic Information System, HCS, Pavement Management, McTrans Highway Capacity Software, SYNCHRO, CMAQ Analysis, GHG Analysis, and other transportation analysis software packages; Purchase, installation, and upgrade of computer systems, software, and equipment, as needed; and Purchase of relevant reference materials and documents.

### PROCEDURES:

1. Staff development, attendance and participation in transportation courses, trainings, seminars, and workshops sponsored by BAT, GATRA, DEP, EOEAA, EPA, FHWA, FTA, MassDOT, and others. This will assist staff in continued and ongoing development, maintenance, and application, sketch planning, quick response, and other forecasting methods. This will also encompass all activities that are directed to the production of new computer procedures that support analytical, administrative and documentation tasks.
2. Computer hardware and software acquisition, maintenance, and updates.
  - Purchase, update/ upgrade, and maintenance of all hardware equipment/ supplies and software applications that are needed for the Transportation Section's computer facilities.
  - Integrate computer capabilities into all practical aspects of the transportation planning process. This effort entails the acquisition, testing, and refinement of additional hardware and transportation related software from U.S. DOT supported research and other public agencies as well as private companies.
  - Provide necessary support for the effective operation of the staff's computers.
  - Monitor technological development in the field of computer hardware and software for potential use in planning activities. Continue ongoing planning, evaluation, and implementation of computer software and hardware.
  - Familiarize the Transportation Staff with the computer facilities and applications through informal and formal training sessions.
  - Continue to maintain and update the inventory of programs and data files.
  - Maintain and update website.

### PRODUCTS:

Staff development of enhanced technical and multi-modal planning capabilities; Attend courses/ workshops etc.; Maintain, and update website, computer hardware and software, and knowledge bases, as needed; Purchase of relevant software, reference materials, and documents; and Application of new forecasting techniques and transportation analysis techniques.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

**SCHEDULE:**

To be carried out throughout FFY 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$38,400	\$9,600					\$48,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 2400 - GEOGRAPHIC INFORMATION SYSTEM (GIS)

### OBJECTIVE:

To improve, develop, and utilize the digital data and geographic tools of the GIS for various tasks within the UPWP. The GIS provides the ability to store, display, manage, and analyze data for different work tasks. This includes land use projections for the LRTP; road inventory files; travel demand modeling; traffic volume; high-crash locations; roadway functional classification; transit route analysis; and pavement management analysis. This task will also include collaboration with communities and regional organizations, and provision of technical assistance on geographic matters.

### PREVIOUS WORK:

Roadway Classification; technical assistance program for member communities; Regional crash database; Regional land use map; Regional growth maps; Regional build out analyses; Parcel Maps; Priority Development Areas (PDAs) and Priority Preservation Areas (PPAs); Crash Cluster Maps; Stormwater Maps; and Developed Land as of 2009.

### PROCEDURES:

1. Collect and map data on bus stops, routes, and ridership.
2. Collect and map data on vulnerable populations (based on income, race, color, national origin, disability, age, and sex) and ensure that data on seniors and disabilities are reported separately.
3. Collect and map data on where affordable housing is located.
4. Enhance system abilities and develop regional databases and geodatabases.
5. Enter relevant demographic, economic, environmental, stormwater, drainage, and traffic data into the GIS as needed to provide increased abilities for organization, analysis, and retrieval.
6. Identify and map Priority Development Areas (PDAs), 43D Priority Development Sites, Transformative Development Initiative Districts (TDIs).
7. Provide GIS, Global Positioning System, and technical assistance to regional communities.
8. Review, select, and purchase additional software and hardware as needed.
9. Utilize GIS and GPS capabilities in maintaining traffic data, mapping pavement condition information, mapping existing and projected land use data for use in various transportation projects such as the revisions to long range transportation plans, special studies, road inventories, roadway functional classifications, crash location analyses, travel demand models, and transit routes; etc.

### PRODUCTS:

Base maps; Overlay files, and photography that can be utilized for tasks including travel demand modeling, traffic counting program, management systems, road inventory; PDAs and PPAs maps; 43D Priority Development Sites maps; Transformative Development Initiatives Districts (TDIs) maps; Crash data processing; Transit routing; Vulnerable population maps; Environmentally sensitive areas; Data models for advanced geoprocessing; and Traffic signal and intersection inventory.

### SCHEDULE:

To be carried out throughout FFY 2022.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$51,200	\$12,800					\$64,000

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### TASK 2500 - MANAGEMENT SYSTEMS (CONGESTION, PAVEMENT, AND SAFETY), AND TRAVEL DEMAND MODELING

#### OBJECTIVE:

##### **Congestion Management Process (CMP)**

To continue to implement a congestion management process. Considered an ongoing effort, staff will continue to collect and maintain data needed in the estimation of refined performance measures while identifying both existing and future needs of the region's transportation system (vehicle, pedestrian, bicyclist, and transit). Subsequently, ranked regional listing of congested highways, transit facilities, pedestrian and bicycle, and park and ride parking facilities that have been established will continue to be refined. As part of this System, regional congestion will be addressed at locations identified in the 2020 Old Colony LRTP.

##### **Pavement Management System (PMS)**

To continue to implement a pavement management system on a continual basis in keeping with objective driven, performance-based planning. Staff will continue to collect and analyze road surface data on federal aid eligible roadways and update the PMS database on an ongoing basis. Staff will also continue to assist and provide technical assistance to local communities interested in developing a local Pavement Management Program. Staff will continue research in updating and/ or replacing the existing the pavement management system software.

##### **Safety Management System (SMS)**

To continue to implement a safety management system. This consists of a systematic process that has the goal of reducing the number of and severity of traffic crashes on roads, reducing transit crashes, reducing pedestrian crashes and injuries, and reducing bicyclist crashes and injuries. Recommended actions include providing information for selecting and implementing effective safety strategies and projects. The safety management system incorporates roadway, human, and vehicle safety elements. Considered an ongoing effort, staff will collect and maintain data needed in the estimation of refined performance measures and the completion of road safety audits. Staff will identify both existing and future needs of the region's multi-modal transportation system regarding safety. This includes producing a "Top 100" crash locations list, including both intersections and corridors, based on regional criteria to develop a list of unsafe locations from a regional perspective, annual regional listings and monitoring of high hazard intersections and corridors, participation and implementation of the Strategic Highway Safety Plan and the Highway Safety Improvement Program, and evaluation of potential improvements.

##### **Travel Demand Modeling**

To continue to develop staff capabilities in using the TransCAD Modeling System and provide assistance in the development of the Statewide Model; Continue refinement, calibration, development, maintenance, and application of the Old Colony Regional Travel Demand Model used in the development of the Long Range Transportation Plan; and Continue refining and calibrating the transportation demand model to meet the forecasting requirements of federal transportation and air quality laws and regulations.

The regional transportation model is an effective and comprehensive way to forecast transportation needs for the next 20 years in the Old Colony region. The transportation model enables forecasting of traffic impacts caused by population and economic growth, identifies congestion growth areas on highways, impacts on travel patterns, and estimate Vehicle Miles Traveled. The model is a valuable transportation tool in analyzing the transportation network and evaluating alternative solution to transportation problems.

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

Staff may hire a consultant to assist with model refinements and will utilize the model in testing of the transportation alternatives as part of the refinement of the Long-Range Transportation Plan and traffic studies as appropriate. The model will also be used to assist in identifying future problem areas and in the development of strategies for the ongoing CMP. Staff will utilize the model in testing of the transit alternatives as part of the refinement of the LRTP and transit studies as appropriate. Staff will continue to work with the MassDOT in developing the statewide travel demand model as needed.

### **PREVIOUS WORK:**

#### **Congestion Management Process**

Monitoring and analysis of the parking, transit, and roadway facilities. Link V/C Ratios as part of the regional traffic-counting program; Participation on the Congestion Management Technical Team, development of strategies, and corridor studies; Data collection, consisting of numerous travel time runs on roads identified as having existing congestion; and Analyzation of Brockton Area Transit's route ridership data. Staff also identified and analyzed the park and ride lots and commuter rail lots in the region and identified problematic bottleneck areas to be studied.

#### **Pavement Management System**

Maintenance of a PMS on the federal aid eligible roadways miles in the region (approximately 642 miles); Report On Roadway Condition; Road Inventory Update; Technical assistance to communities interested in Pavement Management Program; Pavement Management Subcommittee; PCI development for incorporation in transportation evaluation criteria, and formation coordination and implementation of Pavement Management Subcommittee, and related products; Review of consultant proposals for updating and/ or replacing the pavement management system software; and Revisions to the PMS database to reflect changes in road classifications, and cost of materials for developing budgets.

#### **Safety Management System**

Participation in development of Highway Safety Improvement Program; Safety analyses as part of Transportation Evaluation Criteria application; Crash Rate processing; Top 100 High Hazard Intersections; Road Safety Audits (RSAs); and Studies for communities warranting specific attention to safety.

#### **Travel Demand Modeling**

The Regional Transportation Model was used as an analytical tool during the development of the LRTP. Staff utilized a regional traffic simulation model that encompasses every community in the region. The model was used to identify and verify congested corridors/ areas in the region for the CMP, Corridor Studies, and Major Bottleneck Identification Studies.

### **PROCEDURES:**

#### **Congestion Management Process**

1. Continue to work with the CMP to identify and coordinate various work tasks and to ensure consistency with requirements of Transportation Management Areas. Staff will continue to attend meetings and training as appropriate since they serve as a forum for the dissemination of data produced by the system and allow personnel from other RPAs to meet and share information on data collection, data sources, etc.
2. Continue to refine the established CMP network by utilizing the region-wide traffic simulation model to identify any additional facilities on which congestion exists or is predicted; and Develop and monitor a system of performance measures and thresholds.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

3. Continue to identify areas of congestion, and measure identified congested areas on CMP corridors/ roadways/ transit/ pedestrian/ bicycle through a data collection and analysis effort, which includes, but is not limited to the following:
  - Conduct travel time, delay runs in each identified corridor, utilize INRIX. RITUS platforms, and collect traffic counts and turning movement count data, as appropriate.
  - Monitor, survey, and analyze usage at commuter parking lots throughout the region. Develop and monitor mobility and accessibility enhancement measures for the commuter parking lots within the region.
  - Extend and recalibrate the regional model for peak periods and travel time delay. Incorporate turning movement counts and phase specific signal timing information into the model.
  - Continue ongoing collection and analysis of fixed-route transit data. Also included in this process will be to conduct origin/ destination surveys of current transit ridership, walk to transit, and the development and utilization of condition measures and load factors.
  - Continue to identify, evaluate, and select strategies that address congestion, and provide administrative and technical support during the implementation of congestion management strategies.
  - Provide inputs to statewide and regional plans and transportation evaluation criteria for Transportation Improvement Programs.
  - Develop knowledge and skills, regarding the integration of goods movement. Meetings with stakeholders representing the freight community, to understand inefficiencies.
4. Continue to develop and refine congestion control strategies. Develop both general and corridor specific recommendations for relieving congestion on selected corridors.
5. Continue to evaluate performance measures that provide relevant and up-to-date information on the congestion status of transportation facilities.
6. Continue to identify bicycle and pedestrian connectivity gaps.
7. Continue ongoing assessment of the effectiveness of implemented strategies on alleviating congestion.
8. Continue ongoing monitoring and analyses that identify the underlying causes of congestion.
9. Provide analyses that consider non-traditional congestion management strategies (Transportation Demand Management, growth management, congestion pricing, traffic operational improvements, public transportation, and Intelligent Transportation System) to reduce transportation system congestion.
10. Provide in depth study of regional congestion at priority locations.

### **Pavement Management System**

1. Continue to use the pavement management software to maintain and update the Old Colony Pavement Management Program as needed. Pavement management data collection and analyses will be used to develop estimated costs associated with regional pavement conditions and needs. This information is to support the inclusion of pavement projects in the TIP and will aid in the development of realistic estimates of costs to the Region, particularly while developing the LRTP. Staff will update the PMS database to reflect the expansion of the federal aid eligible mileage due to the reclassification of roads and inclusion of new member communities. Pavement management tasks include:
  - Conducting windshield surveys to determine severity and extent of pavement distresses.
  - Developing conditions analysis and recommended repairs and costs, and reports to municipalities.
  - Developing a system of performance measures and thresholds.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

2. Provide technical assistance to member communities interested in the Pavement Management Program.
3. Meet with MassDOT, RPAs, and committees to coordinate regional and statewide efforts and to compare programs and strategies for improvement of data collection, analysis, and assistance to local communities.

### Safety Management System

1. Develop and work with the SMS to identify and coordinate various work tasks and prepare and participate in Road Safety Audits. Staff will continue to attend meetings (such as SHSP and TRCC, etc.), and training as appropriate since they serve as a forum for the dissemination of data produced by the system, and allow personnel from other RPAs to meet and share information on data collection, data sources, etc.
2. Review local and state crash data for intersections and corridors. Calculation of crash rates (crashes per million entering vehicles and crashes per hundred million miles) and comparison to both State and District Averages will be conducted. For corridors, the crashes per lane mile and fatality per lane mile will be used. Produce a "Top 100" crash locations list, including both intersections and corridors, based on regional criteria to develop a list of unsafe locations from a regional perspective.
3. Conduct RSAs and develop both site specific and generalized recommendations to address safety deficiencies. This will include recommendations regarding geometric, speed reductions, traffic calming techniques, vegetation clearing, signage consolidation, pavement markings, pedestrian ramps and crossings, roundabouts, and signalizations, as appropriate.
4. Incorporate safety criteria in the transportation evaluation process used in the development of the TIP. Project specific recommendations will be discussed with local, regional, and state officials as appropriate, to address safety issues and concerns.
  - Provide administrative and technical support during the implementation of safety management strategies.
  - Provide safety inputs to statewide and regional plans and TIPs.
5. Continue to develop and refine safety strategies and develop both general and corridor specific recommendations for addressing safety on selected corridors.
6. Develop a system of performance measures and thresholds, and document results of implemented safety measures. Such measures may include percent reduction in crash rate, percent reduction in the number of injury crashes, and percent reduction in crashes involving fatalities. Improve methods for compiling and retrieving crash data through utilization of GIS and through the improvement of information sharing with local, State, and Federal partners.
7. Continue to measure identified safety at high hazard locations through a data collection effort, which includes, but is not limited to the following:
  - Conducting turning movement counts, vehicle volume studies, vehicle speed studies, vehicle classification studies and pedestrian studies.
  - Continuing to identify, evaluate, and select strategies that address safety.
  - Updating status of performance measures at locations where safety improvements have been implemented.

### Travel Demand Modeling

1. The products developed from the model, i.e., the existing and future year scenarios used for network analysis of air quality and travel demand will be reviewed, evaluated, and utilized as part of any changes/ updates to the LRTP and TIP.

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

2. Continue to refine and update the Old Colony travel demand model to include the block group demographic data from U.S. Census; contract with consultant as needed; this information will be used to calibrate the model (this may include utilizing consultants under contract).
3. Continue to collect/ compile, update traffic count data, and adjust as necessary to refine the accuracy of the model.
4. Develop external zones from external stations on the fringe areas of the region to improve the calibration of the existing conditions as appropriate.
5. Utilize the refined and calibrated model for analyzing alternatives in the development and refinement of the Long-Range Transportation Plan and other transportation or corridor studies (this may include utilizing consultants under contract).
6. Analyze forecast information to identify deficiencies as required for the LRTP and Air Quality Conformity. Evaluate improvement strategies. Incorporate findings in the LRTP as appropriate.
7. Assist MassDOT in the preparation of statewide modeling efforts as needed. Integrate the U.S. Census Block Group data and MassDOT Road Inventories Files into TransCAD model for use with the statewide travel demand model.
8. Continue work on developing the transit network model as appropriate.
9. Collect data on existing services provided by the MBTA, BAT, and GATRA. This data collection will include route and service information provided by the respective transit providers as appropriate.
10. Collect data on needs for transit services across region. Data will be collected using a variety of techniques such as ridership surveys origin/ destination, license plate surveys, and mode split analysis as appropriate.

### **PRODUCTS:**

#### **Congestion Management Process**

Annual Management System Reporting will be prepared; Data collection, intersection data survey, roadway refinement, proposal strategies, progress report preparation, and congestion management team support; In-depth study of regional congestion at priority locations; Consistency with CMP requirement of Transportation Management Areas; Transportation Evaluation Criteria inputs; Locations for expansion of existing Park and Ride Lots; Locations for additional Park and Ride Lots; Establishment of Performances Measures and thresholds; and Measures to reduce greenhouse gas emissions, VMT, and congestion.

#### **Pavement Management System**

Annual Management System Reporting will be prepared; Continue data collection, analysis, and cost estimates for federal aid eligible roadways in the region and use of said data in evaluation of projects to be programmed in the TIP; Database refinement and information for incorporation into GIS; Operations and maintenance cost to maintain the federal aid roadway network; Technical assistance to local communities; and Establishment of Performances Measures and Thresholds, and Transportation Evaluation Criteria inputs.

#### **Safety Management System**

Annual Management System Reporting will be prepared; Road Safety Audits; Top 100 High Hazard Intersections and Corridors; Development of specific-safety recommendations for intersections, corridors, and pedestrian crossings; Inclusion of safety analyses as a component of the Transportation Evaluation Criteria in the development of the TIP; Establishment of Performances Measures and Thresholds; and Identification of safety specific projects for the Old Colony Region.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### Travel Demand Modeling

A completed refined/ recalibrated transportation model for the Old Colony region that can be expanded upon as needed, utilized for travel demand estimation, and forecasting; and Updated network models for the Old Colony region, and refinement of the Traffic Analysis Zones.

### SCHEDULE:

Management Systems and processes, and travel demand modeling to be carried out throughout FFY 2022. Annual Reports, Road Safety Audits, and analyses to be completed by end of September 2022.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$76,800	\$19,200					\$96,000

## **FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)**

### **TASK 3000 - SHORT- AND LONG-RANGE TRANSPORTATION PLANNING ACTIVITIES**

Task 3000 charts the direction for major transportation development activities in the region. As such, it is concerned with continuously updating projects dealing with the demand for transportation; development of a transportation plan which encompasses a Long-Range Element and a Short-Range Element, both incorporating the concept of Transportation Systems Management; a further detailing of the broad findings and recommendations of the Plan in plan refinement; and special purpose plans addressing such items as air quality, energy, and seniors and individuals with disabilities.

Task 3100 - Regional Traffic Studies, ITS, and Intermodal Planning

Task 3200 - Local Highway Transportation Technical Assistance

Task 3300 - Road Safety Audits (RSAs) at Multiple Locations

Task 3400 - High Priority Corridor Study Screening Process

Task 3400 - Freight Planning and Action Plan

Task 3600 - Performance Based Planning and Management

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 3100 - REGIONAL TRAFFIC STUDIES AND INTERMODAL PLANNING

### OBJECTIVE:

To provide planning services for highway, bicycle, pedestrian, transit, and movement of goods in the region designed to address immediate traffic and safety problems. The LRTP identifies deficiencies in the region's transportation network. The deficiencies are shown in the plan including deficient bridges, dangerous intersections, congested highway corridors, and overcrowded transit facilities. Where projects have not been developed to correct these deficiencies, studies and intermodal planning will have to be undertaken to evaluate each problem in detail and to recommend the appropriate solution.

To provide a comprehensive inventory of roadway facilities that interact with the regional hydrologic network, including the condition, type, location, function, surrounding conditions, and environmental attributes of these facilities. Forthcoming EPA Phase II Stormwater Regulations will require communities to locate and map their roadway stormwater infrastructure.

To update an assessment of vulnerabilities and risks that climate change, and/ or extreme weather event pose to critical transportation infrastructure.

Staff will conduct traffic studies and intermodal planning to assist member communities and agencies in developing the appropriate solutions for any identified local transportation deficiencies. Staff also anticipates undertaking traffic studies at selected intersections and along selected roadway corridors identified in the Old Colony LRTP or as part of the CMP, as warranting further study.

### PREVIOUS WORK:

2011 Major Bottleneck Study (Plymouth Route 3 at Exit 6, East Bridgewater Central Square, and West Bridgewater Route 106); 2012 Major Bottleneck Study (Bridgewater Route 104 and Stoughton Route 138); 2013 Major Bottleneck Study (Stoughton Central Street and Avon Harrison Boulevard); 2014 Southwest Brockton Corridor Study; 2014 Regional Freight and Goods Movement Study; Route 53 Corridor Study; Route 58 Corridor Study; Route 106 Corridor Study; Route 123 Corridor Study; 2020 Route 139 Corridor Study; 2020 Main Street Brockton Corridor Study; Stoughton Square By-Pass Study; Stoughton Square Origin - Destination Study; Bridgewater Center Circulation Study; Bourne Road Corridor Study; 2013 participation in development Regional Intelligent Transportation System Architecture for the Metro Boston Area and Southeastern Massachusetts Area; 2007 Old Colony ITS Plan; Complete Streets Technical Assistance; Safe Route to School (SRTS) Technical Assistance; South Coast Rail Technical Assistance; Climate Change Transportation Impact Study; Climate Change Roadway Drainage and Runoff Program; and Avon and Halifax Stormwater Management System Mapping and Database.

### PROCEDURES:

1. The following is an illustrative list of potential projects that could be undertaken as part of this task:
  - Bicycle and Pedestrian Planning, Levels of Service, Technical Assistance, and Education
  - Brockton Area Transit Planning and Technical Assistance
  - City/ town center circulation studies
  - Climate change adaptation strategies to enable the region to implement improvements
  - Collection and mapping of data on bus stops, routes, and ridership
  - Complete Streets Technical Assistance
  - Crash and Safety Studies
  - Development knowledge and skills, regarding the integration of goods movement

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

- Follow-up studies to the Congestion, Land Use, Pavement, and Safety Management Systems
  - Freight Plan and Related Analyses
  - Meetings with stakeholders representing the freight community, to understand inefficiencies
  - Geographic analyses and attribute analyses of drainage facilities that includes capacity and adequacy structures regarding extreme weather events and climate change
  - Identification and demarcation of roadway drainage and stormwater management systems
  - Identify transportation connectivity gaps in accessing essential services
  - Intermodal Connector Analysis
  - Inventory of critical infrastructure vulnerable to extreme weather events and climate change
  - Inventory of gaps within the regional bicycle network
  - Intersection sub-area studies
  - Public Health Assessments
  - Regional Casino/ Gaming Impact Study
  - Regional Intersection Study
  - Safe Routes to School (SRTS) Technical Assistance
  - Trip Generation Study
  - Various corridor-wide traffic studies and Sub-area Traffic Studies
2. Efforts will include undertaking transportation studies at locations and developing specific reports as products for intermodal connectors as requested by local communities, FHWA, FTA, and/ or MassDOT. Staff will work with community officials, MassDOT, and MassDOT District 5, and stakeholders to develop a scope of service for the proposed study.
  3. Potential corridor studies are identified in the UPWP Universe of Projects which include a matrix of evaluation criteria. Potential corridor studies are to be identified and evaluated using a six category methodology (Safety Conditions, Congested Conditions, Multimodal Significance, Regional Significance, Regional Equity, and Implementation Potential) identified in Task 3400. For each corridor study, staff will prepare a draft report, which outlines the Study's findings and recommendations. This report will be circulated for review and comment. Comments will be incorporated into a final report. The findings and recommendations contained in the final report will serve as the basis for including projects in the region's TIP and LRTP.
  5. Conduct public health assessments and consider public health outcomes as part of ongoing planning and performance measures planning; and Assist communities in advancing bicycle and pedestrian projects into the MassDOT Highway Division project development process.
  6. Promote bicycle and pedestrian initiatives in the region; Develop bikeability measures and/ or quality of service metrics; and Coordinate activities within the MassDOT's bicycle and pedestrian planning efforts.

### PRODUCTS:

Bicycle and Pedestrian Planning and Technical Assistance; Inventory of gaps within the regional bicycle network; Brockton Area Transit Planning and Technical Assistance; Complete Streets Technical Assistance; South Coast Rail Technical Assistance; Studies to identify solutions to traffic congestion and safety

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

deficiencies on roadways within the region; Livability Measures; Performance Measures; Walk to Transit Analysis; Safe Routes to School Technical Assistance; Bicycle and Pedestrian Planning, Levels of Service and Education; Participation in updates to Regional Intelligent Transportation System Architectures; Climate Change Roadway Drainage and Runoff Report with recommendations for consideration for future implementation; Inventory of critical infrastructure vulnerable to extreme weather events and climate change; Stormwater management system mapping; Bikeability measures and/ or quality of service metrics; and Climate Change Adaptation.

### SCHEDULE:

To be carried out throughout FFY 2022.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$60,000	\$15,000					\$75,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 3200 - LOCAL HIGHWAY TRANSPORTATION PLANNING TECHNICAL ASSISTANCE

### OBJECTIVE:

To provide a rapid and effective response mechanism to address special, short-term transportation issues and/or projects as they arise. This will include the development, upon request from communities, regional authorities, state agencies, and federal agencies, of detail technical data, analyses, and reports that will assist in improving the region's transportation infrastructure.

### PREVIOUS WORK:

Route 123/Linwood/ Lorraine/ VA Hospital/ and Manley Streets Intersection analysis in Brockton; Washington Street (Route 138) and Elm Street Intersection Study in Easton; Route 138 and Route 106 Intersection Study in Easton; Elm Street and Furnace Street in Halifax; Long Pond Road Speed Study in Plymouth; West Bridgewater Route 106 at Howard Street Traffic Study; Brockton Main Street RSA; Kingston Smith's Lane Traffic Study; Pembroke Mattakeesett Traffic Study; Pembroke and Duxbury Heavy Vehicle Pattern Study; Halifax Route 36 at Oak Street Safety Study; West Bridgewater South Street Safety Study; Plymouth Safe Routes to School Study; Stoughton Hansen School Circulation Study; East Bridgewater Summer Street at Belmont Street RSA; Pembroke Route 53 at Route 139 Traffic Study; Samoset Street Plymouth RSA, Nelson Street and Water Street Plymouth RSA; Route 27 Hanson RSA; Bay Road at Boulder Lane Stoughton/ Sharon RSA; Pembroke Plain Street and Lake Street Study; Plymouth Standish at Alden Street Study; Plymouth Standish at Cherry Street Study; Abington Hancock Street at Chestnut Street RSA; and numerous other transportation studies requested by communities.

### PROCEDURES:

1. Provide technical planning analysis assistance to communities and MassDOT on highway, pedestrian, and bicycle transportation planning related matters in the form of meetings, data, analyses, and reports. The staff shall perform work on specific short-range highway planning tasks including but not limited to: Intersection and capacity analysis; Road Safety Audits; SYNCHRO analysis; Walk to transit analysis; Crash analysis; Air quality analysis, both commuter and municipal parking analysis; Carpool/vanpool analysis; Trip generation estimation analysis; Sight distance analysis; Traffic impact analysis of proposed developments; Traffic analysis studies; and Other short-range studies to determine the need for traffic signals, traffic signs, traffic markings and the use of one-way streets.

### PRODUCTS:

Local Technical Assistance Reports/ documents will be prepared. Included in these reports/ documents will be data, analyses, and improvement recommendations (location improvements, speed zoning, heavy vehicle exclusions, etc.) for implementation, and inclusion in MassDOT Project Information Forms, as appropriate.

### SCHEDULE:

To be carried out throughout the program year.

### FUNDING:

FHWA PL	MassDOT					TOTAL
\$68,000	\$17,000					\$85,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 3300 - ROAD SAFETY AUDITS (RSAs) AT MULTIPLE LOCATIONS

### OBJECTIVE:

To conduct Road Safety Audits (RSAs) at multiple locations (approximately 20) throughout the region at high crash locations. To reduce the number of crash-related fatalities and incapacitating injuries, Massachusetts Department of Transportation has developed a Strategic Highway Safety Plan. The mission of the Safety Plan is to “Develop, promote, implement, and evaluate data-driven, multidisciplinary strategies to maximize safety for users of the roadway system.” One of the many strategies noted in the current Safety Plan is to “conduct Road Safety Audits at high-crash locations throughout the Commonwealth.” A Road Safety Audit, as defined by the Federal Highway Administration (FHWA) is “a formal safety performance examination of an existing or future road or intersection by an independent audit team.” Simply stated, an RSA is a relatively quick process that identifies safety improvements focused on decreasing the number and severity of roadway crashes. The safety improvements recommended typically vary from low-cost measures to significant improvement projects. Many States that have employed the RSA technique and implemented the recommendations, have seen measurable decreases in the number of incapacitating and fatal crashes as a result.

This task consists of a systematic process that has the goal of reducing the number of and severity of traffic crashes on roads, reducing transit crashes, reducing pedestrian crashes and injuries, and reducing bicyclist crashes and injuries. Recommended actions include providing information for selecting and implementing effective safety strategies and projects. Results of the Road Safety Audits will be included in the ongoing safety management system that incorporates roadway, human, and vehicle safety elements. Considered an ongoing effort, staff will collect and maintain data needed in the estimation of refined performance measures and the completion of road safety audits. Staff will identify both existing and future needs of the region’s multi-modal transportation system regarding safety. This includes producing a “Top 100” crash locations list, including both intersections and corridors, based on regional criteria to develop a list of unsafe locations from a regional perspective, annual regional listings and monitoring of high hazard intersections and corridors, participation and implementation of the Strategic Highway Safety Plan and the Highway Safety Improvement Program, and evaluation of potential improvements.

### PREVIOUS WORK:

Participation in development of Highway Safety Improvement Program; Safety analyses as part of Transportation Evaluation Criteria application; Crash Rate processing; Top 100 High Hazard Intersections; Road Safety Audits (RSAs); and Studies for communities warranting specific attention to safety.

### PROCEDURES:

1. Develop and work with the Safety Management System (SMS) to identify and evaluate high crash locations and coordinate various work tasks and prepare and participate in Road Safety Audits. Staff will continue to attend meetings (such as SHSP and TRCC, etc.), and training as appropriate since they serve as a forum for the dissemination of data produced by the system, and allow personnel from other RPAs to meet and share information on data collection, data sources, etc.
2. Review local and state crash data for intersections and corridors. Calculation of crash rates (crashes per million entering vehicles and crashes per hundred million miles) and comparison to both State and District Averages will be conducted. For corridors, the crashes per lane mile and fatality per lane mile will be used. Produce a “Top 100” crash locations list, including both intersections and corridors, based on regional criteria to develop a list of unsafe locations from a regional perspective.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

3. Conduct Road Safety Audits (RSAs), utilizing the MassDOT RSA Guidelines, and the MassDOT RSA Report Template, at multiple locations as a formal safety review of an existing, or planned road or intersection. During these audits, an independent, multidisciplinary team identifies potential safety issues and opportunities for safety improvements. In addition, the team develops both site specific and generalized recommendations to address safety deficiencies. This includes recommendations regarding geometric, speed reductions, traffic calming techniques, vegetation clearing, signage consolidation, pavement markings, pedestrian ramps and crossings, roundabouts and signalizations, as appropriate. Staff will utilize the Manual on Uniform Traffic Control Devices, the MassDOT Project Development and Design Guidebook, and the Governor’s Highway Safety Bureau.
4. Incorporate safety criteria in the transportation evaluation process used in the development of the TIP. Project specific recommendations will be discussed with local, regional, and state officials as appropriate, to address safety issues and concerns.
  - Provide administrative and technical support during the implementation of safety management strategies.
  - Provide safety inputs to statewide and regional plans and TIPs.
5. Continue to develop and refine safety strategies and develop both general and corridor specific recommendations for addressing safety on selected corridors.
6. Continue to measure identified safety at high hazard locations through a data collection effort, which includes, but is not limited to the following:
  - Conducting turning movement counts, vehicle volume studies, vehicle speed studies, vehicle classification studies and pedestrian studies.
  - Continuing to identify, evaluate, and select strategies that address safety.
  - Updating status of performance measures at locations where safety improvements have been implemented.

**PRODUCTS:**

Road Safety Audits; Top 100 High Hazard Intersections and Corridors; Development of specific-safety recommendations for intersections, corridors, and pedestrian crossings; Inclusion of safety analyses as a component of the Transportation Evaluation Criteria in the development of the TIP; Establishment of Performances Measures and Thresholds; and Identification of safety specific projects for the Old Colony Region.

**PRODUCT:**

Road Safety Audits; Top 100 High Hazard Intersections and Corridors; Development of specific-safety recommendations for intersections, corridors, and pedestrian crossings; Inclusion of safety analyses and countermeasures for implementation as a component of the Transportation Evaluation Criteria, and for inclusion in MassDOT Project Initiation Form Data for MaPIT in the development of the TIP; Establishment of Performances Measures and Thresholds; and Identification of safety specific projects for the Old Colony Region.

**SCHEDULE:**

To be carried out throughout the year and completed by the end of September 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$70,561	\$17,640					\$88,201

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 3400 - HIGH PRIORITY CORRIDOR STUDY SCREENING ASSESSMENT

### OBJECTIVE:

Addressing and alleviating congestion and improving safety enhances the mobility of all users. During the development of the Old Colony 2020-2024 Long Range Transportation Plan (LRTP), the staff identified the existing needs for all transportation modes in the region. The results were compiled and then used to guide the MPO's decision-making process for selecting transportation projects.

The objective of this task is to conduct a High Priority Corridor Study Screening Assessment of State Numbered Routes (arterial segments) that will identify, rank, and inform the selection process for locations to conduct corridor studies that will then inform the Long-Range Transportation Plan Needs Assessment.

The corridor studies undertaken in future UPWPs will provide short term and long-term recommendations and strategies that seek to enhance circulation, mobility, and traffic flow efficiency, improve safety, improve bicycle and pedestrian accommodation, and assist with the attainment of adopted performance measures and targets. By focusing on arterial segments rather than intersections, planners can evaluate multimodal transportation needs comprehensively. A holistic approach to analyzing problems and forming recommendations ensures that the needs of all transportation users are considered.

### PREVIOUS WORK:

Congestion Management Process; Regional Traffic Count Program; Level of Service Analyses; Regional Corridor Studies; Access Management Plan; Long Range Transportation Plans; 2011 Major Bottleneck Identification Study; 2011 Major Bottleneck In Depth Analysis Study; and, 2012 Major Bottleneck In Depth Analysis Study; 2013 Major Bottleneck In Depth Analysis Study; Route 123 Corridor Study; Route 139 Corridor Study; Southwest Brockton Corridor Study; Route 28 Corridor Study; Climate Change Transportation Vulnerability Assessment.

### PROCEDURES:

The process for selecting study locations consists of three steps.

- Gathering and assembling data about the arterial segments and then using the data to identify and prioritize them.
  - Examining the arterial segments more closely by applying specific criteria.
  - Staff scoring each arterial segment and assigning a priority of low, medium, or high to each segment.
1. Arterial Segment Identification, Documentation, and Existing Conditions: Develop documentation of existing conditions through in-depth analysis of state number route corridors. The process shall utilize the CMP, SMS, LUMS, the 2020 LRTP, Regional Travel Demand Models, Travel Time Studies, and Corridor Studies. All relevant and attainable data will be collected and reported during this phase of the project. Data, such as, average daily traffic, peak period volumes, and levels of service, crashes rates, trip generators, land uses, bus routes, will be catalogued, summarized, and ranked. The data compiled for the existing conditions will be tested to document the deficiencies along the facilities, and to identify their causes and their impact on traffic flow, and accessibility.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

Identify arterial segments on state numbered routes in the region based on the following data sources:

- The MassDOT Road Inventory File and crash portal to assemble the following information for each arterial segment: roadway jurisdiction, National Highway System status, average daily traffic (ADT), crash clusters, high-crash locations, and crash rates.
- The CMP data on arterial congestion to determine average travel speeds, travel-time index (travel time in the peak period divided by travel time at free-flow conditions), travel time and speed index (average travel speed divided by the speed limit) on each arterial segment.
- Data on gaps in the bike network and data on the location of bike facilities to identify needs for the bicycle mode, including locations where connectivity between bicycle facilities could be improved and where bicyclists' accommodations could be improved.
- Data on arterials vulnerable to climate change and extreme weather events.
- Data on BAT, GATRA, and MBTA bus routes, subway lines, and commuter rail lines to identify which arterial segments serve buses or stations.
- Data on BAT, GATRA, and MBTA bus service performance and passenger load to determine the percentage of bus trips that do not adhere to the schedule (in other words, that provide late service) or do not adhere to passenger load standards (resulting in crowding).
- Data on the Environmental Justice (EJ) transportation analysis zones to identify areas of concern as relates to environmental justice.
- Data selected from MassDOT's project-information database, the FFY 2022-2026 TIP projects, planning studies and other studies, and municipal websites were used to obtain data on projects, studies, and TIP projects that are planned or programmed for each arterial segment.

2. Arterial Segment Examination and Scoring: Examine the arterial segments closely by applying the criteria and assigning points based on the number of criteria that apply to each location. The following are examples of suggested criteria for consideration:

- Safety Conditions
- Congested Conditions
- Multimodal Significance
- Regional Significance
- Regional Equity
- Implementation Potential

3. Prepare Conclusions and Recommendations: The product is an assessment that provides a framework for the alleviation traffic congestion, improvement of safety, and elevation of access throughout the region, informs the LRTP Needs Assessment, and provides a prioritized listing of locations to be further studied in future UPWPs.

**PRODUCT:**

Preparation of the High Priority Corridor Study Screening Assessment.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$48,000	\$12,000					\$55,000

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### TASK 3500 - FREIGHT PLANNING AND ACTION PLAN

The freight planning efforts are ongoing and largely based on a series of studies being conducted to help integrate freight-related goals into the regional long range transportation planning process. The freight industry and the movement of goods plays an important role in the success of our local economy and this task aims to illustrate, understand, and accommodate the movement of freight in, around, and through our region.

Importantly, the national performance goal for freight movement and economic activity are considered and embraced by the MPO. The goal is to improve the nation's freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development; and support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency. The MPO applies specific criteria in the review of transportation strategies. These criteria are applied to changes of delay and emissions. Reduction in traffic delay has a direct consequence on economic vitality both through the timely arrival of commuters and goods and reduction in fuel expenses and losses due to air pollution. The LRTP directly supports these efforts through the goal: "Promote Policies that Ensure Economic Vitality and Sustainability." The MPO directly supports regional productivity through its economic development mission manifested in the Regional Policy Plan, including support of the federally approved Old Colony Comprehensive Economic Development Strategy (CEDS) priority projects.

#### **OBJECTIVE:**

The principal objectives of this study are to build a foundation to formally integrate freight into the overall planning process, to identify and plan for long-term freight needs, to develop specific long-range transportation projects, identify potential funding sources for those projects, and evaluate policy-based solutions to accommodate future levels of freight on our regional transportation system while protecting the mobility and safety of the traveling public. This plan will be a follow up to the 2014 Regional Freight & Goods Movement Study, the 2014 NHS Intermodal Connectors Study, and will build upon the findings and recommendations from MassDOT's 2018 Freight Study.

Staff will utilize NCHRP's Guidebook for Freight Policy, Planning, and Programming in Small- and Medium-Sized Metropolitan Areas as its roadmap to develop the freight plan and to establish a freight program for the agency. This resource has already proven to be an asset.

#### **PREVIOUS WORK:**

Regional Truck Route Identification Study, Long Range Transportation Plans, Regional Policy Plan, Congestion Management Process, Land Use Management System, Safety Management System, Pavement Management Systems, Regional Freight & Goods Movement Study, NHS Intermodal Connectors Study, Road Safety Audits.

#### **PROCEDURES:**

1. Establish the basis for subsequent freight planning and developing a regional freight profile.
2. Identify quick-action freight related strategies, policies, and projects specific to the region that could be implemented into the MPO's plans and programs.
3. Consider existing PM3 Truck Travel Time Reliability (TTTR) performance measures and targets.
4. Inventory Weight and Height Restrictions.

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

5. Review and analyze Rest Locations for Long-Distance Truck Drivers
6. Predict future freight traffic volumes through the year 2050.
7. Identify areas likely to see future capacity constraints and infrastructure deficiencies
8. Identify possible traffic bottlenecks and safety concerns
9. Evaluate the costs and benefits of potential improvements

**PRODUCT:**

Development of Freight Planning and Action Plan.

**SCHEDULE:**

To be carried out throughout the year and completed by September 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$48,000	\$12,000					\$60,000

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### TASK 3600 - PERFORMANCE BASED PLANNING AND MANAGEMENT

The cornerstone of the Federal transportation program transformation is the implementation of a performance-based outcome program. States and regions invest in projects to achieve targets that collectively will make progress towards national goals. Therefore, the objective is to develop performance measures and targets for the Old Colony Region for utilization in the planning process and inclusion in the Long-Range Transportation Plan. Projects and service implemented through the TIP will help to achieve the performance targets for Safety (PM1), Bridge and Pavement Condition (PM2), System Performance Measures (PM3), Public Transportation Agency Safety Plan (PTASP), and Transit Asset Management State of Good Repair.

Performance based planning and management increases the accountability and transparency of the Federal-aid highway program and provides for a framework to support improved investment decision making through a focus on performance outcomes for key national transportation goals. The FAST Act supports and continues an overall performance management approach, within which states invest resources in projects that collectively will make progress toward national goals.

The national planning factors include:

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- Increase the safety of the transportation system for motorized and non-motorized users;
- Increase the security of the transportation system for motorized and non-motorized users;
- Increase accessibility and mobility of people and freight;
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- Promote efficient system management and operation;
- Emphasize the preservation of the existing transportation system;
- Improve the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation; and
- Enhance travel and tourism.

#### PREVIOUS WORK:

MPO coordination, review and adoption of Statewide Performance Measures and Targets (PM1, PM2, and PM3, and Performance Measures and Targets for Public Transportation Agency Safety Plan Transit Asset Management (BAT); Long Range Transportation Plan; Regional Policy Plan; Congestion Management Process; Land Use Management System; Safety Management System; Pavement Management Systems; Road Safety Audits; and Reviews, comments, and site visits relating to Environmental Notification Forms and MEPA Environmental Impact Reports/ Environmental Impact Statements.

#### PROCEDURES:

1. Establish and refine performance measures and thresholds for pavement conditions and performance of the federal aid network, bridge conditions, injuries, and fatalities, traffic congestion. The federal rulemaking process will establish performance measures for each of these items. As such, this does not preclude the region from establishing additional measures for use locally, and the Old Colony MPO

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

will continue to review the supplement the performance measures developed and included in the 2020 Long Range Transportation Plan. Using information collected annually through other tasks outlined in this document, implement, and maintain a comprehensive strategy to evaluate the effectiveness of transportation improvements throughout the region.

2. Determine and set performance measures and thresholds in support of the performance measures framework and describe how program and project selection will help achieve the targets. With acceptable thresholds or targets for performance measures, staff will continue to maintain relevant data for safety, pavement, and congestion management and provide comparison analyses before and after the implementation of projects.
3. Review and comment on traffic studies submitted to member municipalities by developers under the Massachusetts Environmental Protection Agency (MEPA) process or as needed/requested for local permits. Review projects for consistency with the regional transportation goals and objectives, program consistency, etc.
4. Consider utilizing INVEST TOOL - Projects will also be potentially evaluated on their sustainability through the FHWA web-based tool known as Infrastructure Voluntary Evaluation Sustainability Tool. Although voluntary, this information will be useful to determine the long-term effectiveness of improvement projects.
5. Conduct public health assessments and consider public health outcomes as part of ongoing planning and performance measures planning.

**PRODUCTS:**

Development and refinement of Performance Measures and Targets for the Old Colony Region; Review and comment on traffic studies submitted to member municipalities by developers under the Massachusetts Environmental Protection Agency; and Public Health Assessments. Performance measurement progress will be documented in the Old Colony Transportation Improvement Program, contained within relevant 3C planning documents, and summarized in the Old Colony UPWP Annual Progress Report.

**SCHEDULE:**

To be carried out throughout the year and completed by the end of September 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$16,000	\$4,000					\$20,000

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### **TASK 4000 - OTHER TRANSPORTATION TECHNICAL ACTIVITIES, PLANNING STAFF, FUNDING SOURCES, BUDGETS, AND TASKS**

While conducting transportation and transportation related planning activities, it is often the case that certain activities are called for which do not fit into the existing work program elements. When this is the case, those activities are programmed under the element heading of Other Transportation Technical Activities, Planning Staff, Funding Sources, Budgets, and Tasks.

Task 4100 - Transit Technical Assistance, and Seniors and Individuals with Disabilities Support

Task 4200 - BAT Planning and Technical Studies

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

### TASK 4100 - TRANSIT TECHNICAL ASSISTANCE, AND SENIOR AND INDIVIDUALS WITH DISABILITIES SUPPORT AND ASSISTANCE

#### OBJECTIVE:

To respond to short-range transit planning needs upon request from communities, BAT, GATRA, MassDOT, and MBTA. To maintain an understanding of the region's transit system to provide an accurate basis for future forecasting, planning and program analysis, and project evaluation.

To maintain and update the Coordinated Public Transit - Human Service Transportation Plan.

To ensure the accessibility to public transit services for seniors and individuals with disabilities; Attend meetings of the senior and disability committees; Provide technical assistance to BAT, GATRA, region's municipalities, human service agencies, Councils on Aging, private non-profit agencies, and other parties involved in meeting special transportation needs.

To provide Community Transit Grant support, technical assistance, related coordination.

To maintain and operate a Congestion Management Process.

#### PREVIOUS WORK:

BAT - Aging in Place Studies; Comprehensive Regional Transit Plan; Fare Elasticity and Equity Study; Fixed Route Ridership Analyses; Service Change Equity Analysis; Title VI Studies; Air quality analysis for CMAQ and Transportation Demand Management proposals; Rockland Transit Feasibility Study; System Time Study; Route 2A Analysis; Abington Transportation Study; Paratransit Expansion; Brockton -Taunton Fixed Route Options Study; Regional Coordinating Committee participation; and Human Services Coordination Plan.

GATRA - Ridership analysis; Human Services Coordination Plan.

Other - Assisted Communities, COAs and other public and private agencies with the Section 5310, 5317, and MAP; Transit Directories; RTA Fare Comparison; Queset Commons Transit Study; Rockland Transit Study; Senior and Individuals with Disabilities Neighborhood Sourcebook; Technical assistance to public and private non-profit organizations in preparing Federal Transit Administration applications for Section 5310, and Mobility Assistance; Regional map showing the locations with high density of senior population (60+); Compilation of U.S Census data of senior population; Air quality analysis for CMAQ proposals; Abington Transportation Study; Human Services Coordination Plan; and Community Transit Grant support, technical assistance, and related coordination.

#### PROCEDURES:

1. Provide technical planning assistance to transit providers and member communities on transit matters. This assistance may take the form of assistance in meeting federal reporting requirements and in assessing and evaluating routes; Title VI update; Fare change and service change equity analyses; Schedule and fare changes; Assessment of human and capital needs; Provide and improve BAT's analytical and forecasting capabilities; Assist BAT with the Americans with Disabilities Act Plan update; Title VI Trend Analysis; and Service Area Demographic Trend Profiles.
2. Provide technical planning assistance to area communities outside the transit authority service areas, on transit matters. This assistance can take the form of helping the communities in: Assessing

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

potential membership in a transit authority; Assisting the communities in providing for private carrier service; Identifying and assessing park-and-ride lots; Assessing commuter rail lots; Encouraging private enterprise participation; and Census and journey-to-work technical assistance, etc.

3. Prepare information as needed for FTA reports, State Implementation Plan submissions, MassDOT reports, and other required reporting.
4. Provide transit inputs into regional transit and transportation modeling efforts, and conduct air quality analysis as needed for transit projects.
5. Continue to aid and guidance to applicants for Community Transit Grant Program in preparing applications and coordinating service.
6. Provide technical assistance to public and private non-profit agencies in the development, maintenance, and expansion of senior and/ or individuals with disabilities services in the region.
7. Continue to provide support for the replacement of paratransit vehicles.
8. Develop updates for the Coordinated Public Transit Human Service Coordination Plan in coordination with communities, transit providers, and regional coordination committees, as appropriate.
9. Operate and maintain a Congestion Management Process.
10. Conduct public health assessments and consider public health outcomes as part of ongoing planning and performance measures planning.
11. Collection and mapping of data on bus stops, routes, and ridership.

**PRODUCTS:**

OCPC staff to: Provide technical assistance to BAT, GATRA, MBTA, SSCAC, and to area communities as needed; Develop information for compliance with federal and state requirements for the TIP; BAT/ GATRA (Brockton/ Taunton) Intercity Feasibility Study; Coordinated Public Transit - Human Service Coordination Plan Updates; Community Transit Grant Program support and technical assistance; and Travel Demand Model, and LRTP updates, as appropriate.

**SCHEDULE:**

To be carried out throughout FFY 2022.

**FUNDING:**

FHWA PL	MassDOT					TOTAL
\$32,000	\$8,000					\$40,000

# FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

## TASK 4200 - BAT PLANNING, TECHNICAL ASSISTANCE, AND STUDIES

### OBJECTIVE:

To provide transit-planning services, prepare technical studies, comprehensive service assessments, and aid in other planning related activities that are called for during the year which presently are not specifically identified in work program.

### PREVIOUS WORK:

BAT Aging in Place Studies; BAT Comprehensive Regional Transit Plan (CRTP); BAT fixed-route ridership analyses; Brockton Area Transit Farebox Analyses; Title VI Reports; BAT Service Change Equity Study; BAT Fare Equity and Elasticity Study; Air quality analysis for CMAQ and Transportation Demand Management proposals; Route 2A Study; Rockland Transit Feasibility Study; System Time Study; Abington Transportation Study; Brockton-Taunton Fixed Route Options Study; and Human Services Coordination Plan.

### PROCEDURES:

1. Develop a detail study(s) design/ estimated work time effort and cost for planning tasks requested by Brockton Area Transit. The following is a list of planning/ projects that could be undertaken as part of this task: Americans with Disabilities Act Plan Update; Route Evaluation Study/ Survey; Fare Increase Analysis; Service Change Study; Title VI Report; Title VI Trend Analysis; Transfer Study; Demographic/ Urban Area Analysis; Manley Street Industrial Park Route Analyses; Technical assistance to BAT, as needed, on the Intermodal Facility; Avon/ Stoughton Route extension planning; Fare Modeling Study; Massasoit Study; Comprehensive Regional Transit Plan (CRTP); Planning assistance and alternatives analyses as identified in the CRTP; and Stoughton Fixed Route Study.
2. Prepare analyses, reports, maps, charts, as appropriate.
3. Coordinate with BAT on the identification and prioritization of potentially needed rider amenities.
4. Undertake planning, studies, and comprehensive service assessments in accordance with study requirements and available funding.

### PRODUCTS:

OCPC staff to undertake and prepare studies such as: Fixed Route Evaluation Study; Fixed Route Ridership Report; Fare Change Equity Study; Service Change Equity Study; South Shore Medical Transportation Options Study; Avon/ Stoughton Route Extension Planning Study; Bridgewater State University Transit Route Expansion Study; Massasoit Reverse Commute Study; BAT Comprehensive Regional Transit Plan (CRTP); and Provision of planning assistance and alternatives analyses as identified in the CRTP.

### SCHEDULE:

To be carried out throughout FFY 2022. Schedules are contract dependent and will vary throughout FFY 2022.

### FUNDING:

FHWA PL	MassDOT	BAT				TOTAL
		\$50,000				\$50,000

## FFY 2022 OLD COLONY UNIFIED PLANNING WORK PROGRAM (UPWP)

<b>TRANSPORTATION PLANNING STAFF</b>
--------------------------------------

The following OCPC staff members will be working on the FFY 2022 Unified Planning Work Program. The expected Task Areas are also provided. The percent effort represents the approximate time devoted to the FFY 2022 UPWP.

<u>Name</u>	<u>Title</u>	<u>% Effort</u>
<b>Shawn Bailey</b> Task Areas 1000, 2000, 3000, 4000	<b>Senior Transportation Planner</b>	<b>95%</b>
<b>Raymond Guarino</b> Task Areas 1000, 2000, 3000	<b>Principal Transportation Planner</b>	<b>100%</b>

**APPENDIX B - §450.336 - SELF CERTIFICATION COMPLIANCE STATEMENT - 3C PROCESS  
ENDORSEMENT**

## 23 CFR § 450.220 and 23 CFR § 450.336 - Old Colony MPO Self Certification Compliance Statement

The Old Colony Metropolitan Planning Organization certifies that its conduct of the metropolitan transportation planning process complies with all applicable requirements, which are listed below, and that this process includes activities to support the development and implementation of the Regional Long-Range Transportation Plan and Air Quality Conformity Determination, the Transportation Improvement Program and Air Quality Conformity Determination, and the Unified Planning Work Program.

1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
2. In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
11. Anti-lobbying restrictions found in 49 USC Part 20. No appropriated funds may be expended by a recipient to influence or attempt to influence an officer or employee of any agency, or a member of Congress, in connection with the awarding of any federal contract.

## **NOTICE OF PUBLIC REVIEW AND COMMENT PERIOD** **FFY 2022 UNIFIED PLANNING WORK PROGRAM (UPWP)**

In accordance with the Public Participation Process developed by the Old Colony Metropolitan Planning Organization (MPO), Old Colony Planning Council (OCPC) is making the FFY 2022 UPWP available for public review and comment. Copies of are available for review at <http://www.ocpcrpa.org/>, and/or upon request. This notice will initiate a 21-Day Public Review and Comment Period. This process will also be used as Brockton Area Transit Authority's (BAT) public participation process. BAT, the Federal Transit Administration (FTA) Section 5307(c) applicant, has consulted with the Old Colony MPO and concurs that the public involvement process adopted by the Old Colony MPO for development of the TIP satisfies the public hearing requirements that pertain to the development of the Program of Projects for the regular Section 5307, Urbanized Area Formula Program, grant applications including the provisions for public notice and the time established for public review and comment. Public notice of public involvement activities and time established for public review and comments on the TIP will satisfy the program of projects (POP) requirements. The public discussion of the TIP at Old Colony JTC, Old Colony MPO, and transportation meetings satisfies the Program of Projects (POP) public hearing requirements of the FTA. A public meeting of the OCPC and Old Colony MPO advisory committee, the Old Colony Joint Transportation Committee (JTC), is scheduled for June 3, 2021 at 12 PM. Furthermore, a public meeting of the Old Colony MPO is scheduled for June 15, 2021 at 10 AM to hear public comments and consider endorsement. Please contact Charles Kilmer at 508-583-1833 Extension 206 for further information.

Please send written comments to:

Old Colony Planning Council (OCPC)  
70 School Street  
Brockton, MA 02301  
[ckilmer@ocpcrpa.org](mailto:ckilmer@ocpcrpa.org)

The Old Colony MPO fully complies with Title VI of the Civil Rights Act of 1964 and related statutes and regulations in all programs and activities. The Old Colony MPO operates without regard to race, color, or national origin (including limited English proficiency), age, sex, disability, ancestry, ethnicity, gender, gender identity or expression, sexual orientation, religion, creed, veteran's status, or background. Any person who believes him/herself or any specific class of persons, to be subject to discrimination prohibited by Title VI may by him/herself or by representative file a written complaint with the Old Colony MPO. Complaints are to be filed no later than 180 days from the date of the alleged discrimination. Please contact Pat Ciaramella at 508-583-1833 Extension 202 for more information.

26 BIGELOW STREET, QUINCY NOTICE OF MORTGAGE'S SALE OF REAL ESTATE Premises: 26 Bigelow Street, Quincy, Massachusetts

By virtue and in execution of the Power of Sale contained in a certain mortgage given by Michelle M. Garcia and Sergio Garcia to Chase Bank USA, N.A., said mortgage dated July 11, 2006, and recorded in the Norfolk County Registry of Deeds, in Book 29886 at Page 8, and now held by Southdale RE, LLC, by virtue of an assignment from Kondaur Capital Corporation, not in its individual capacity but solely in its capacity as Separate Trustee of Mastwin Ventures Trust Series 2019-4, to Southdale RE, LLC, dated January 19, 2021 and recorded in Norfolk County Registry of Deeds in Book 33014, Page 230, previously assigned by Wilmington Savings Fund Society, FSB, dba Christina Trust, not in its individual capacity but solely in its capacity as Certificate Trustee for NPL Trust Series 2012-1, to Kondaur Capital Corporation, not in its individual capacity but solely in its capacity as Separate Trustee of Mastwin Ventures Trust Series 2019-4, by virtue of an assignment dated April 9, 2020 and recorded in Norfolk County Registry of Deeds in Book 33783, Page 281, previously assigned by PennyMac Corp. to Wilmington Savings Fund Society, FSB, dba Christina Trust, not in its individual capacity but solely in its capacity as Certificate Trustee for NPL Trust Series 2012-1, by virtue of an assignment dated February 24, 2020 and recorded in Norfolk County Registry of Deeds in Book 33783, Page 275, previously assigned by PennyMac Holdings LLC to PennyMac Corp. by virtue of an assignment dated January 23, 2020 and recorded in Norfolk County Registry of Deeds in Book 37581, Page 505, previously assigned by JPMorgan Chase Bank, National Association, S/BAM to Chase Home Finance, LLC, to PennyMac Holdings, LLC, by virtue of an assignment dated December 11, 2019 and recorded in Norfolk County Registry of Deeds in Book 31161, Page 285, previously assigned by Gap Assignment from PennyMac Corp. to JPMorgan Chase Bank, National Association, S/BAM to Chase Home Finance, LLC, by virtue of an assignment dated January 23, 2020 and recorded in Norfolk County Registry of Deeds in Book 37581, Page 505, previously assigned by JPMorgan Chase Bank, N.A., S/BAM to Chase Home Finance, LLC, by virtue of an assignment dated September 17, 2013 and recorded in Norfolk County Registry of Deeds in Book 27678, Page 151, by breach of the conditions in said mortgage and for the purpose of foreclosing the same, will be sold at Public Auction on May 26, 2021 at 2:00 PM Local Time upon the premises, all and singular the premises described in said mortgage, to wit:

The land in Quincy, with buildings thereon, bounded and described as follows: Westerly by Bigelow Street, formerly Cherry Avenue, 84y and 03/100 (50.03) feet; Northerly by land now or formerly of Herman Kjelberg, eighty-eight (88) feet; Non-Southerly by land formerly of Crane and Damon, fifty-one and 62/100 (51.52) feet; Southerly by land formerly of George T. Bigelow, now or formerly of Giuseppe Mannelli, et al., one hundred two and 96/100 (102.66) feet.

Containing four thousand seven hundred thirty-eight (4,738) square feet of land, more or less. The mortgagee's expressly reserve their rights of redemption and do not wish to terminate without Homesteading by granting the within conveyance notwithstanding waiver of such homestead in paragraph 24 of the within mortgage. The Mortgages hereby subordinate the Declaration of Homestead recorded in said Registry at Book 22028, Page 517, with respect to the grant of the mortgage only. The mortgage shall be deemed to be senior to the Declaration Homesteaded just as though the mortgage had been recorded prior to the Declaration. In all other respects, the Declaration of Homestead shall remain in force and effect.

For title reference see deed recorded with the Norfolk County Registry of Deeds at Book 22008, Page 321. The description of the property that appears in the mortgage to be foreclosed shall control in the event of a typographical error in this publication.

For Mortgagee's Title, see deed dated January 20, 2005, and recorded in Book 22008 at Page 321 with the Norfolk County Registry of Deeds.

TERMS OF SALE: Said premises will be sold and conveyed subject to all liens, encumbrances, unpaid taxes, tax titles, municipal liens and assessments, if any, which take precedence over the said mortgage above described.

FIVE THOUSAND (\$5,000.00) Dollars of the purchase price must be paid by a certified check, bank treasurer's or cashier's check at the time and place of the sale by the purchaser. The balance of the purchase price shall be paid in cash, certified check, bank treasurer's or cashier's check within sixty (60) days after the date of sale.

Other terms to be announced at the sale. BENNETT & MOHUGH, PC 278 Farm Street, Farmington, CT 06032 Attorney for Southdale RE, LLC Present Holder of the Mortgage (800) 617-2668 AD11396096 5/19, 5/19/21

**Subject:** Old Colony work plan comments

Dear Sir:

I reviewed the recent work plan and am offering comments as a resident, taxpayer and Finance Committee member in the Town of Avon. This is my first time commenting so I am not sure how useful they are:

- Overall the work plan seems to spread your budget across the Council's priorities in a reasonable manner. The budget and staffing are limited.
- I would like to see priority in the Council on dealing with the heavy traffic congestion along MA-24 in Canton/Stoughton/Randolph. This is part of the many safety issues involving this highway as documented in this Enterprise article from 2019 - <https://www.heraldnews.com/news/20190304/road-from-hell-route-24-is-dangerous-deadly-highway>.
- Can you give priority to adding another lane to Rt 24 in the Canton/Randolph/Stoughton/Avon area? The heavy congestion is likely to grown and should not be ignored. There are many businesses in the Avon Industrial Park and other nearby areas that would benefit from fewer traffic delays.
- I applaud the efforts of the Council to work on enhancements or upgrades to Rt 28 running through many communities including Avon.
- Bike lanes are very limited compared to some other areas of the state. I've spent a lot of time in greater Medford MA and Barnstable MA. Both areas have many multi use paths (for bicycling, walking, etc.) and bike lanes. In contrast, the south shore has a paucity of safe biking options. For more evidence, one has to only look at Google Maps for "bicycling" to see the limited options in the area. Can you give more priority to this area? I am less interested in bike lanes and prefer separate multi use paths. Personally, I would not be likely to use a bike lane on Rt 28 as it would still seem too unsafe to me. I'd rather be on quieter roads without a bike lane.
- Overall, the work plan is at the "meta" level and has little or no discussion of the substantive projects and priorities of the Council such as Rt 28. Is that covered in another document? If not, the Work Plan would benefit from information on the current substantive priorities (as opposed to methodological priorities like data reconnaissance, performance based planning, public participation program, etc.).

Thank you for considering my views,  
Richard Jordan  
Avon, MA

# Summary of Comments on Draft FFY 2022 Old Colony UPWP

might be helpful here just to quote the planning factors, for clarity when they are referenced later

For the UPWP, it may be helpful to just have a quick list of the performance objectives and targets. I'd recommend leaving the full narrative in the TIP, but using a summary table or short list of bullets here. It would also be helpful to cross-reference these goals/targets with the tasks identified in the UPWP (i.e. which tasks support which targets?).

Please also see my comments re: targets/measures/objectives in the 2022-26 TIP draft.

 Author: Andrew.Reovan    Subject: Sticky Note    Date: 6/4/2021 9:36:02 AM  
Just curious: will this be updated when the UPWP takes effect and FY21 ends?

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 11:34:35 AM  
Minor question: Are these items not covered by the later tasks in the 1000 series?

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 11:34:44 AM  
see comment above on UPWP, TIP, PPP

Please specify FFY 2022 (see later comment). As with other tasks, would be helpful to clarify that the funding listed here only covers through Sept 2022 (even if the task may continue).

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:12:40 PM  
Please specify FFY 2022 (see a later comment)

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:12:16 PM  
See later comment - please specify FFY22 (ends September 2022)

---

Author: Andrew.Reovan      Subject: Sticky Note      Date: 6/7/2021 12:03:21 PM

Is there a process for identifying or soliciting regional studies? Apologize if this is in the LRTP, but just wondering if a short description might be helpful here.

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:11:42 PM

For tasks like this, please specify that this will end by September 2022 (as with some later tasks). We just need to know the FFY of spending, so it's helpful to clarify that end timeline (even if the actual work/task may be continued in FFY23).

Thank you for looping FHWA into these processes, I've appreciated the invitations! While I've not made it to all, it's been great to see.

---

 Author: Andrew.Reovan    Subject: Sticky Note    Date: 6/7/2021 12:06:21 PM  
Minor point: Not sure if this much detail is needed in the UPWP. May be most helpful for the LRTP and CMP.

---

 Author: Andrew.Reovan    Subject: Sticky Note    Date: 6/7/2021 12:07:05 PM  
Is this content redundant with the information provided earlier? Might also consolidate into the TIP/LRTP.

---

 Author: Andrew.Reovan    Subject: Sticky Note    Date: 6/7/2021 12:09:13 PM  
Just confirming: Is OCPC staff conducting these activities? Would be helpful for the 4000s tasks to specify that this is the work carried out by OCPC (not by BAT/GATRA).

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:09:54 PM  
please specify that this covers work during FFY22 only (not FFY23)

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:10:12 PM  
please specify FFY bounds

---

 Author: Andrew.Reovan    Subject: Highlight    Date: 6/7/2021 12:13:33 PM  
FFY 2022

---

Is it possible to clarify the task areas or individual tasks where each staff member will focus?

---

 Author: Andrew.Reovan    Subject: Sticky Note    Date: 6/7/2021 12:14:44 PM  
This table is great, thank you!
