Mr. Marc Tisdelle, P.E.
Town Engineer – Town of Stoughton
10 Pearl Street
Stoughton, MA. 02072

Dear Mr. Tisdelle,

Per your request, the Old Colony Planning Council has completed traffic data collection and analysis for Island Street and Mill Street in Stoughton, for the purpose of assisting the Town in your application to MassDOT for a Heavy Commercial Vehicle Exclusion (HCVE) on Island Street, between Central Street (Route 27) and Mill Street. This traffic study was completed under Task 3200 (Local Highway Technical Assistance) of the Old Colony Metropolitan Planning Organization's (MPO) Unified Planning Work Program.

Island Street and Mill Street are both two-lane roadways, with developed residential and industrial land uses. Lane widths are generally 10 to 12 feet wide, and neither roadway has shoulders. Island Street has a sidewalk on the southbound side of the roadway, beginning at Mill Street and continuing into Canton. Island Street is functionally classified as an Urban Collector, while Mill Street is classified as a local roadway.

Table 1: Existing Traffic Conditions on Island Street and Mill Street. March 2017

	Average Weekday Volume	Average Speed	85th Percentile Speed	Posted Speed Limit	% heavy Vehicles
Island Street, north of Central Street (Route 27)	3,311	20 MPH	33 MPH	25 MPH	6.4%
Island Street, at Canton Town Line	3,981	25 MPH	38 MPH	25 MPH	6.7%
Mill Street, south of Island Street	1,682	24 MPH	37 MPH	25 MPH	7.7%

Table 1 summarizes the traffic data that was collected on Island Street and Mill Street using automatic traffic records during the week of March 27 – March 31, 2017. The percentage of heavy vehicle traffic on Island Street satisfied the warrant for consideration of a Heavy Commercial Vehicle Exclusion as stated in the 2012 Massachusetts Amendments to the Manual on Unified Traffic Control Devices (MUTCD).

Based on an assessment of the study area, there are two potential options for a Heavy Commercial Vehicle Exclusion on Island Street. These options are:

Potential HCVE Exclusion Zone and Alternate Route #1: As identified in the original request, this option keeps the HCVE zone and alternate route completely within the Town of Stoughton's jurisdiction. In this scenario, an HCVE zone would be created on Island Street, between Central Street (Route 27) and Mill Street, a distance of 0.5 miles. The alternative truck route with this scenario is Mill Street to Central Street (Route 27), a distance of 0.71 miles, adding approximately 0.21 miles of travel for heavy vehicles. It should be noted that Mill Street, functionally classified as a local roadway, is narrow and developed with residential land uses, and has many of the same physical constraints to access and mobility of heavy vehicles that Island Street does.

Potential HCVE Exclusion Zone and Alternate Route #2: In this scenario, the proposed HCVE zone would be longer, covering Island Street in its entirety in Stoughton, and Pine Street (Island Street becomes Pine Street in Canton) in its entirety from the Stoughton Town Line to Bolivar Street in Canton. The total distance of this potential HCVE zone is 1.5 miles. The proposed alternative truck route for this exclusion would direct trucks down Lincolnshire Drive to Pleasant Street, and then Pleasant Street to the Stoughton Town Line in Canton (becoming Pearl Street in Stoughton), Pearl Street to Central Street (Route 27), and Central Street (Route 27) to Island Street. This proposed alternative route is functionally classified as an Urban Collector for a short distance on Lincolnshire Drive in Canton, and an Urban Minor Arterial on Pleasant Street, Pearl Street, and Central Street (Route 28). This alternative route is 2.57 miles in length, resulting in just over 1 additional mile of travel for heavy vehicles. This scenario requires the cooperation and written approval of the Town of Canton. Truck operators may also use Bolivar Street, traveling westward to Washington Street, and south to Sharon Street (Route 27).

The preferred option of these two scenarios is likely the second option, making all of Island Street in Stoughton and Pine Street in Canton a posted Heavy Commercial Vehicle Exclusion zone, using Bolivar Street, Lincolnshire Drive, Pleasant Street, Pearl Street, and Central Street as the alternative truck routes. This alternative would keep trucks on functionally classified roadways, and off of local streets. It is important to note, however, that both Island Street and

Pine Street have several commercial and industrial land uses. Heavy commercial vehicles would still be permitted to travel to and from these businesses even with a posted HCVE. Heavy Commercial Vehicle Exclusions only apply to through moving vehicles (those vehicles not making any stops along the roadway).

Enclosed, please find the results of the traffic data collection, along with the procedure for requesting a Heavy Commercial Vehicle Exclusion in in Massachusetts. The Town may use this traffic data as supporting material for its request for a Heavy Commercial Vehicle Exclusion on Island Street. It is recommended that the Town of Stoughton contact MassDOT District Five and work with them on pursuing a Heavy Commercial Vehicle Exclusion for Island Street and/or Island Street and Pine Street in Canton. It is also important that the Town of Stoughton contact the Town of Canton, and work with that town on this request should you choose to request an HCVE and alternative route that crosses between both towns.

Should you have any questions or comments about this traffic study or its findings, please contact Bill McNulty or (508) 583-1833 ext. 207, or by e-mail at wmcnulty@ocpcrpa.org.

Sincerely,

Charles Kilmer, AICP
Assistant Director / Transportation Program Manager

Cc:

Chief Donna M. McNamara, Stoughton Police Department
Ms. Noreen O'Toole, Stoughton Town Planner and Chairperson, Old Colony Joint Transportation Committee

- (2) After the speed zones, proposed by the local authorities, are reviewed by the Department, they are returned to the municipality for formal adoption by the rule-making body. During this time, the municipality is responsible for any and all hearings required for adoption.
- (3) Upon receipt of notice of formal adoption by the municipality, the Department, acting jointly with the Registry, will certify and approve.
- (4) Certified regulation is returned to municipality.
- (5) Official Speed Limit signs may then be installed in accordance with the specific provisions of the approved speed regulation.
- (6) The Special Speed Regulation is then enforceable against violators.

Section 10A-9 Heavy Commercial Vehicle Exclusion

A truck exclusion from a municipal way may be authorized provided a suitable alternate route is available. The alternate route shall have an effective width and pavement structure which can safely accommodate the additional truck traffic. In addition the alternate route must meet one of the following conditions:

- (1) Lie wholly within the community making application,
- (2) Lie partially in an adjacent community but only on State Highway, or
- (3) Lie partially in an adjacent community but have the adjacent community's written approval.

Numbered routes are ineligible for heavy commercial vehicle exclusions, per Board of Commissioners, November 22, 1995.

An engineering study, as outlined in the Data requested below, must be made. In addition, one or more of the following may be sufficient justification for truck exclusion:

1. Warrants

- A. A volume of heavy commercial vehicles, which usually is in the range of five (5) to eight (8) percent, reduces the utilization of the facility and is cause for a substantial reduction in capacity or safety.
- B. The condition of the pavement structure of the route to be excluded indicates that further repeated heavy wheel loads will result in severe deterioration of the roadway. (subject to Department review)
- C. Notwithstanding the foregoing, in certain instances where land use is primarily residential in nature and a municipality has requested exclusion only during hours of darkness, a specific night exclusion may be granted.

2. Data

Before the Department can consider an exclusion proposal, the following data must be submitted by the municipality:

- A. A twenty-four hour consecutive count of all vehicles using the subject street. (If the exclusion is requested for only twelve hours, a twelve-hour count will suffice.) The count shall be broken into one-half hour intervals showing:
 - (1) Commercial vehicles with a carrying capacity over 2½ tons
 - (2) Other vehicles
- B. Map of the area, with the excluded street marked in red, the alternate route in green.
- C. Physical characteristics of excluded and alternate streets in question, i.e, length, width, type and condition of surface and sidewalk.
- D. Types of buildings or property abutting street (Residential, Business, School, Playground, etc).
- E. Zoning of Street (Residential, Industrial, etc.).
- F. Proximity of probable alternate route to the proposed excluded route and the additional distance to be traveled using the alternate route.
- G. Types of traffic control existing on street.
- H. Hours during which exclusion is to be in effect.
- I. A written statement from the municipality as to the need for the exclusion, and acknowledgement of acceptance of the responsibility for installation and maintenance of appropriate signage.

EXEMPTIONS: Exclusions shall not apply to heavy commercial vehicles going to or coming from places upon said streets for the purpose of making deliveries of goods, materials, or merchandise to or similar collections from abutting land or buildings or adjacent streets or ways to which access cannot otherwise be gained; or to vehicles used in connection with the construction, maintenance and repair of said streets or public utilities therein; or to Federal, State, Municipal or public service corporation owned vehicles.
