9. Development of the 2050 Old Colony Long Range Transportation Plan (LRTP) – Update and Status Report

Bill McNulty provided an update and status report on the 2050 Old Colony LRTP.

Old Colony Planning Council is currently developing the Old Colony Metropolitan Planning Organization's 2050 Long Range Transportation Plan. Staff are currently finalizing a public survey, while collaborating with planning partners and stakeholders, and Old Colony Planning Council is embarking on its public outreach process for this Plan development.

Socioeconomic Projections and Travel Demand Model Update

Staff have been actively participating in a Socioeconomic Data Projections Committee, which is comprised of MPO's and the Massachusetts Department of Transportation. The University of Massachusetts' Donahue Institute has been contracted to work with the Committee in developing population and economic projections through 2050. These projections are important as they help guide planning and investment in the future, but they also are a critical component of the travel demand model, which is also being updated for the LRTP.

Goals of the Old Colony 2050 Long Range Transportation Plan

The Goals of the Old Colony 2050 Long Range Transportation Plan are stated as such:

OLD COLONY METROPOLITAN PLANNING ORGANIZATION (MPO)

- **Safety:** A safe transportation system that minimizes risk of serious injury to motorized and vulnerable users of the system and helps the Region and Commonwealth move towards its Vision Zero goals
- **Transparency and Equity: An open and inclusive planning process that ensures representation and access to all persons**
- **Economic Vitality:** A transportation network that fosters and supports a robust and diverse economy in the Old Colony Region
- **Security:** A transportation system that maintains security for physical infrastructure and the users of the system.
- **Accessibility:** A transportation system that ensures access and mobility for all motorized and vulnerable system users
- **A Clean Environment:** A transportation system that is not only protected but enhanced through energy conservation and smart, green practices
- **Resiliency:** A transportation system that is sustainable and resilient
- **State of Good Repair:** A planning process that prioritizes maintenance and keeping physical infrastructure in a state of good repair
- **Efficiency:** A transportation system that minimizes financial and environmental costs associated with congestion and delay

Planning Scenarios

During development of the Beyond Mobility: the statewide Massachusetts 2050 Transportation Plan, it was identified how these recent trends have already had a substantial impact on how people live, work, and travel in the Commonwealth, and how these trends could continue to affect the state through 2050.

- Climate Change
- The Future of Work
- Population Trends
- Housing and Economy
- Prosperity
- Technology

The Old Colony Long Range Transportation Plan will present how these factors have affected the region, and how acceleration, maintenance of the status quo, or a reversal of trends through 2050 could affect the region.

Development Schedule

The following is the planned development schedule for the 2050 Long Range Transportation Plan.

Key Dates:

- Completed Draft: April 2023
- Release to Public Comment Period: May 16, 2023
 - Plan Presented to Old Colony Planning Council: May 31, 2023
 - Plan Presented to JTC: June 1, 2023
- Old Colony MPO Endorsement: June 20, 2023

OLD COLONY METROPOLITAN PLANNING ORGANIZATION (MPO)

Public Engagement Plan

- Public Survey
- Mobility and Justice Focus Groups (Coordination with MassDOT)
- Identify and engage stakeholders, community organizations, LEP, Traditionally Underserved, and Environmental Justice Populations, and environmental groups
- Report to Joint Transportation Committee and Metropolitan Planning Organization monthly (or as often as they convene)
- Virtual Webinars
- Old Colony Planning Council Open House
- Table Events at Brockton Area Transit
- Dedicated Plan Page on oldcolonyplanning.org website
- Traditional and Social Media Outreach

Public Survey

As part of the public engagement component of the 2050 Old Colony Long Range Transportation Plan development, Old Colony Planning Council will be conducting a survey for transportation and environmental stakeholders and residents in the Old Colony region. The survey is being in conjunction with the concurrent Beyond Mobility survey as part of the Statewide Long Range Transportation Plan update. The questions mirror those in the statewide survey while adding questions to reflect local priorities. The results of the survey will guide us in the Plan development with a better understanding of the reimportation priorities of the public.

10. Administrative Matters, Other Business, and Date and Time of Next Meeting(s)

Charles Kilmer reported on a few items:

“Try Transit”

Brockton Mayor Robert F. Sullivan and Brockton Area Transit (BAT) Administrator Michael Lambert recently announced that from November 25th through December 31st BAT’s bus and paratransit services would be free thanks, in part, to a grant included in the state budget and awarded by the Massachusetts Department of Transportation. The program is designed to encourage new customers to “Try Transit” by offering no cost trips to shop or dine at local businesses, visit with friends and family, and commute to work during the holiday season.

FHWA publishes Vulnerable Road User Safety Assessment Guidance

Secretary Buttigieg recently announced that the Federal Highway Administration published the Vulnerable Road User Safety Assessment guidance. The Vulnerable Road User Safety Assessment is a new requirement in the Highway Safety Improvement Program under the Bipartisan Infrastructure Law. All States are required to develop a Vulnerable Road User Safety Assessment by November 15, 2023. The Vulnerable Road User Safety Assessment includes a quantitative analysis of vulnerable road user fatalities and serious injuries to identify areas as "high-risk" to vulnerable road users. The States will consult with local governments that represent the high-risk areas to identify a program of projects or strategies to reduce safety risks to vulnerable road users in these areas.

OLD COLONY METROPOLITAN PLANNING ORGANIZATION (MPO)

Bourne - Cape Cod Canal Bridges Program Virtual Public Information Meetings – November 15 and 17, 2022 at 6:00 p.m.

Thriving Communities Program (TCP) Notice of Funding Opportunity

Funded with \$25 million through the Consolidated Appropriations Act of 2022, the U.S. Department of Transportation’s (DOT) new Thriving Communities Program (TCP) aims to ensure that disadvantaged communities adversely or disproportionately affected by environmental, climate, and human health policy outcomes have the technical tools and organizational capacity to compete for federal aid and deliver quality infrastructure projects that enable their communities and neighborhoods to thrive.

Date and Time of Next Old Colony MPO Virtual Meeting(s)

Charles Kilmer asked that the Old Colony MPO members confirm the dates and times of their next virtual meetings. The dates are:

2022
