Mr. Frank Lynam
Town Administrator – Town of Whitman
54 South Avenue
Whitman, MA. 02382

Dear Mr. Lynam:

Per your request, the Old Colony Planning Council has completed a traffic study of Washington Street from Auburn Street (Route 14) to Route 18 in the Town of Abington. The enclosed data and support material is intended to support your application for a Heavy Commercial Vehicle Exclusion zone permit from MassDOT on this section of roadway.

The enclosed map highlights both the section of Washington Street in Whitman and Abington that you intend to request a Heavy Commercial Vehicle Exclusion for, and the preferred alternate route for heavy vehicles.

- **Proposed Heavy Commercial Vehicle Exclusion Zone:** Washington Street, between Auburn Street (Route 14) and the Abington Town Line in the Town of Whitman, and Washington Street from the Whitman Town Line to Route 18 in Abington (2 miles)
- **Preferred Alternate Route:** Auburn Street (Route 14) from Washington Street to Route 18 in Whitman; Route 18 from Auburn Street to the Abington Town Line in Whitman, and Route 18 from the Whitman Town Line to Washington Street in Abington (2.69 miles)

Table 1 summarizes traffic conditions along Washington Street. Much of Washington Street carries significant volumes of heavy vehicle traffic, as the roadway provides a direct route from Route 14, Route 104, and Route 106 to the south and Route 18 to the north.

Table 1: Existing Traffic Conditions along Forest Street

	Average Weekday Volume	Average Speed	85th Percentile Speed	Posted Speed Limit	% heavy Vehicles
Washington Street, north of Auburn Street (Route 14)	11,096	28 MPH	39 MPH	30 MPH	4.3%
Washington Street, north of Temple Street (Route 27)	9,023	19 MPH	31 MPH	30 MPH	16.2%
Washington Street, at Abington Town Line	8,488	36 MPH	43 MPH	35 MPH	11.7%

Physical Inventory

Washington Street in the proposed exclusion zone is a two-lane roadway, with a single travel lane in each direction that ranges from 12 to 14 feet wide. However, travel lanes are narrower within Downtown Whitman due to the presence of on-street parking. In this section of Downtown Whitman, travel lanes are 10 to 12 feet wide. Paved shoulders range generally from 3 to 5 feet wide, however are somewhat narrower in spots. Pavement conditions range from fair within Downtown Whitman, and from the Whitman Town Line to Route 18, to excellent between Park Avenue and the Abington Town Line, and good from Auburn Street to Broad Street. This section of Washington Street includes two all-way stop controlled intersections in Downtown Whitman: at Temple Street (Route 27), and at Park Avenue / West Street.

Pavement on Auburn Street is in excellent condition between School Street and Washington Street, and fair condition from School Street to Route 18. It is a two-lane roadway, with a single 12 to 15 foot travel lane in each direction and 3 to 5 foot paved shoulders. The roadway does widen out with the addition of a left turn lane on the westbound approach to the Route 18 intersection. The roadway includes a 3 foot wide sidewalk on the westbound side of the road

Bedford Street (Route 18) is generally a two-lane roadway between Auburn Street (Route 14) and Washington Street, although widens out to four lanes at the intersections of Route 14 and Route 27. Also, turning lanes are included at both entrances to the Stop and Shop at 475 Bedford Street. Travel lanes range from 12 to 15 feet wide, and shoulders range generally from 1 to 3 feet wide. Pavement is in fair condition with visible surface wear, cracking, and settling of utility cuts. All of Bedford Street has a 3 foot sidewalk on at least one side of the roadway, and on both sides between 475 Bedford Street and Forest Street in Whitman. There are three signalized intersections within this section of roadway: Bedford Street (Route 18) at Auburn Street (Route 14), Bedford Street (Route 18) at 475 Bedford Street (Stop and Shop), and Bedford Street (Route 18) at Temple Street (Route 27).

Zoning and Land Use

The majority of Washington Street in the proposed HCVE zone is zoned as residential, with thickly settled single family home development lining much of the route. Within Downtown Whitman, zoning is for General Business, and this area features a traditional downtown area with a mix of retail, service, and restaurant businesses.

Auburn Street (Route 14) between Washington Street and Bedford Street (Route 18) as zoned as residential, and developed with single family homes.

Bedford Street (Route 18) is zoned for Highway Business, and is developed with a mix of retail and service oriented businesses. There is a golf course abutting Route 18 in Abington.

Please refer to the enclosed Whitman Zoning Map for more details on the boundaries of zoning in the proposed HCVE zone and along the preferred alternate route.

Proximity of Alternate Route to Proposed HCVE Zone

Bedford Street (Route 18) parallels Washington Street, and eventually meets Washington Street in Abington. It is easily accessible using Auburn Street, a 0.85 mile connection between Washington Street and Bedford Street. The proposed HCVE zone is 2 miles in length, and the proposed preferred alternate route is 2.69 miles in length. The entirety of the preferred alternate route is on the state numbered route highway system, and appropriate for heavy commercial vehicle traffic.

Working jointly with the Town of Abington, the Town of Whitman should work with District Five of the Massachusetts Department of Transportation (MassDOT) on its request for a Heavy Commercial Vehicle Exclusion zone on Washington Street from Auburn Street (Route 14) to Route 18 in the Town of Abington. The Town may use the data, maps, and findings from this Study as supporting material in its request.

Should you have any questions regarding this study or the analysis contained within, or require further assistance, please contact Bill McNulty at wmcnulty@ocpcrpa.org or at (508) 583-1833 x207.

Sincerely,

Charles Kilmer, AICP
Assistant Director / Transportation Program Manager

CC:
Mr. Bruce Martin, Superintendent, Whitman Department of Public Works
