1. Call to Order and Introductions

Chairperson Derek Shooster called the meeting to order at 10:02 A.M. Chairperson Shooster then read the meeting accessibility statement and the Title VI Notice of Protection Statement. Charles Kilmer then conducted roll call.

2. Public Comments

Charles Kilmer provided a farewell to staff member Matt Dyer on his final day with OCPC. Charles Kilmer recognized Matt Dyer for his years of impactful service, and noted the successful integrated transportation and comprehensive planning while expanding the agency's toolkit, most notably by spearheading the culvert assessment fieldwork program. Though he is leaving OCPC, Matt Dyer will remain within the local area, transitioning into his new role as the Assistant Town Administrator for the Town of Whitman beginning July 1, 2026. Dan Salvucci, Vice Chair of the Whitman Board of Selectmen, welcomed Matt Dyer to the municipal team, expressing confidence in his strong skill set and his ability to quickly master town government operations. Overall, colleagues expressed gratitude for Matt Dyer's contributions and look forward to maintaining a strong collaborative relationship with him in his new position.

3. Minutes of the May 19, 2026 Meeting

A motion to approve the draft minutes of the May 19, 2026 meeting was made by Dan Salvucci and seconded by Michael Lambert. Members voted as follows:

Derek Shooster	Aye
Barbara Lachance	Aye
Dan Salvucci	Aye
Michael Lambert	Aye
Becky Coletta	Aye

The motion passed.

4. Brockton Area Transit (BAT) Report

Michael Lambert provided the following updates:

Ridership Update

- **Performance:** Ridership saw a strong recovery during April and May, with numbers exceeding the same months from the previous year.
- **Recovery:** This rebound is a positive turnaround after ridership took a significant hit due to winter weather earlier in the year.
- **Next Steps:** A full, comprehensive end-of-year ridership report will be presented at the next meeting.

Electric Bus & Infrastructure Expansion

- **Fleet Doubling:** BAT has received four out of five newly ordered electric buses. The fifth bus is currently in transit, passing through Wyoming. Once it arrives, the total delivery will double the size of BAT's existing electric fleet.
- **Solar and Resiliency:** The agency is close to purchasing its first set of solar panels. These panels will serve a dual purpose: providing physical shelter for the buses and generating energy for battery storage to improve system resiliency.

5. Greater Attleboro Taunton Regional Transit Authority (GATRA) Report

Mary Ellen DeFrias provided the following update:

Service Expansion & Driver Hiring

- **Sunday Service:** GATRA has officially rolled out Sunday service in Taunton and Attleboro.
- **Future Expansion:** The agency is actively working to hire more drivers to expand this Sunday service to the Plymouth and Wareham routes, with hopes of launching it by the summer.

Gateway Link Performance

- **Ridership Success:** The Gateway Link continues to exceed expectations, currently moving over 5,000 people per month.
- **Regional Demand:** Leaders noted that this high ridership proves the strong regional need for transit connection between Brockton, Taunton, and Fall River, validating it as a program well worth continued investment.

World Cup Transit Operations

- **Positive Recognition:** The agency received positive public feedback (noted in regional media such as the *Globe* or *Boston Business Journal*) regarding smooth transit operations surrounding World Cup events.
- **Mass Transit Milestones:** Describing the team at the MBTA as "amazing to work with," it was highlighted that GATRA successfully moved 950 people on Saturday night alone.

6. FFY 2026-2030 Old Colony Transportation Improvement Program (TIP) Adjustments and/ or Amendments

Bill McNulty stated that there are no action items at this time.

7. FFY 2027-2031 Capital Investment Plan (CIP) Overview

Michelle Scott presented on the FFY 2027-2031 CIP. MassDOT publishes a Capital Investment Plan each year. The Draft FY 2027-2031 CIP includes all capital expenditures planned for the next five years for MassDOT's Divisions consisting of Aeronautics, Highway, Rail and Transit, Registry of Motor Vehicles, and Planning and Enterprise Services. It also includes state-funded investments for the Massachusetts Bay Transportation Authority.

A draft of the document may be reviewed online at: https://www.mass.gov/lists/developing-the-capital-investment-plan

As part of public engagement for the draft 2027-2031 CIP, MassDOT held six meetings with regional partners, the Metropolitan Planning Organizations. Information presented during these public meetings reflects the Draft 2027-2031 CIP, which may differ from the final 2027-2031 CIP. The meetings were as follows:

- May 28, 2026 - Northern Middlesex / Merrimack Valley
- June 1, 2026 - Central Massachusetts
- June 2, 2026 - Western Massachusetts
- June 2, 2026 - Boston Region
- June 3, 2026 - Cape Cod and Islands
- June 8, 2026 - Southeastern Massachusetts / Old Colony

Slide Deck Availability: In response to attendee inquiries, Charles Kilmer shared a link to the presentation slide deck in the webinar chat. It was noted that staff can also post the deck on the website for those who did not attend the Zoom meeting.

Capital Investment Plan (CIP) Link: Charlie Kilmer shared the web link for the MBTA's current Capital Investment Plan, which was highlighted during Michelle Scott's presentation as being distinct from the statewide Massachusetts CIP.

Full Build Status: John Fay submitted a question regarding the "full build" items for the South Coast Rail. Charles Kilmer and the Derek Shooster clarified that the final "go or no-go" decision regarding the full build phase is still to be determined.

FY 2027–2031 CIP: The presentation covered the Fiscal Year 2027 to 2031 Capital Investment Plan. No further questions were raised by the attendees.

8. Draft FFY 2027 Unified Planning Work Program (UPWP)

10. Corridor Study Updates

- **Route 80 Corridor Study - Kingston and Plymouth**
- **Route 53/139 Corridor Study - Pembroke**

Guoqiang Li discussed the Route 80 Corridor Study.

Project Overview & Collaboration

- **Location:** The study spans the Route 80 corridor across Kingston and Plymouth, from Indian Pond Road/Elm Street south to Carver Road.
- **Partners:** OCPC is working in wide collaboration with MassDOT District 5 and the towns of Kingston and Plymouth. The team has hosted two public meetings, multiple town coordination sessions, and received over 150 public survey responses.

Key Concerns & Findings

- **Multi-Modal Safety:** While drivers generally adhere to posted speed limits, the corridor was identified as unsafe for pedestrians and bicyclists due to fragmented sidewalks, a lack of safe crossings, and a high volume of local, seasonal, and shopping-related through-traffic.
- **Environmental Preservation:** Public feedback strongly emphasized the need to preserve surrounding green space, natural resources, and wildlife species. The draft chapter on culvert assessments (completed by Matt Dyer's) is already finished.
- **Target Intersections for Improvement:**

- **Route 3A at Route 80:** Needs signal upgrades, new pavement markings, and pedestrian/bicycle safety enhancements.
- **Route 80 at Commerce Way (Old Colony Shopping Area):** This intersection experiences crash rates slightly above the state and district averages; proposed fixes include adjusting yellow and red signal clearance times.
- **Route 80 at Carver Road:** Recommended for signalization upgrades and pedestrian crossing safety improvements.

Next Steps & Timeline

- **August:** The comprehensive draft report will be delivered to MassDOT District 5 and the local communities for initial review.
- **September:** The draft report will be posted publicly on the OCPC website for a formal public comment period, with the final study slated for completion by the end of the month.

Bill McNulty discussed the Route 53/139 Corridor Study.

Project Overview & Outreach

- **Location & Timeline:** The study focuses on the Route 53/139 corridor in the town of Pembroke. Its timeline directly parallels the Route 80 study, aiming for full finalization by the end of the program year in September.
- **Collaboration:** The team executed a robust public outreach process, including public surveys and coordination meetings with MassDOT and Pembroke town officials. While formal outreach is largely complete, materials remain online for ongoing public comment.

Key Regional Challenges

- **Interchange Congestion:** Heavy capacity constraints and traffic bottlenecks are occurring around the Route 139 and Route 3 interchange, exacerbated by short left-turn storage lanes.
- **Land Use & Future Stress:** A large residential development is currently underway off Oak Street (just off Route 139), and the area holds potential for further high-density housing. This incoming growth is expected to add significant trip volume to an already stressed network.
- **Speed Management:** On the western portion of the corridor away from the interchange, the focus shifts from congestion to managing high travel speeds.
- **Environmental Concerns:** The corridor crosses the North River, which runs underneath Route 139 and flows directly into a nature reserve on the south side, requiring careful environmental consideration.
- **Multimodal Barriers:** The corridor currently acts as a physical barrier for pedestrians and bicyclists trying to safely cross from one side of Route 139 to the other.

Next Steps

- **Late Summer:** OCPC is currently in the report development stage and will circulate a completed draft to the Town of Pembroke and MassDOT colleagues for an initial review.
- **September:** Following the internal review, the draft will be opened up for a general public review and comment period before being finalized at the end of the month.

11. Administrative Matters, Other Business, and Date and Time of Next Meeting(s)

Charles Kilmer reported on the following items:

Brockton Area Transit Authority (BAT) Report

- **CY 2026 Public Transit Agency Safety Plan (PTASP)**
  - **Review and Potential Endorsement**
- **FY 2027 Transit Asset Management (TAM) Performance Measures and Targets**
  - **Review and Potential Endorsement**

Summary

Brockton Area Transit Authority to present CY 2026 Public Transit Agency Safety Plan (PTASP), and FY 2027 Transit Asset Management (TAM) Performance Measures and Targets, for review and consideration.

BAT | PTASP SAFETY PERFORMANCE TARGETS

CY2026 targets • Fixed Route and Demand Response (Dial-A-BAT)

WHAT IS PTASP? Public Transportation Agency Safety Plan — BAT's framework for identifying hazards, reducing risk, and tracking safety performance.

The FTA's April 2024 PTASP final rule strengthened transit safety requirements by increasing frontline transit worker involvement, expanding de-escalation training, and requiring additional safety risk reduction measures. For large urbanized area providers, this includes eight additional safety performance targets addressing risks such as worker assaults, vehicle-pedestrian collisions, and transit worker injuries, based on a three-year rolling average of NTD data.

SAFETY EVENTS & ASSAULTS

MEASURE	FIXED ROUTE	DEMAND RESPONSE
Major events	**2.60**	**0.40**
Major event rate	**0.21**	**0.07**
Collision rate	**0.17**	**0.07**
Pedestrian collision rate	**0.01**	**0.00**
Vehicular collision rate	**0.15**	**0.07**
Assaults on transit workers	**6.00**	**0.00**
Assault rate on transit workers	**0.41**	**0.00**

FATALITIES, INJURIES & RELIABILITY

MEASURE	FIXED ROUTE	DEMAND RESPONSE
Fatalities	**0.00**	**0.00**
Fatality rate	**0.00**	**0.00**
Transit worker fatality rate	**0.00**	**0.00**
Injuries	**8.80**	**0.60**
Injury rate	**0.70**	**0.12**
Transit worker injury rate	**0.09**	**0.03**
System reliability	**40,137**	**139,856**

Rates are per 100,000 vehicle revenue miles. Reliability is miles between major failures.

BAT | FY2027 TAM PERFORMANCE TARGETS

WHAT IS TAM? The FTA established minimum performance-management requirements to ensure transit agencies systematically monitor the condition of their vehicles, equipment, and facilities and use that information to support maintenance, replacement, and investment decisions.

FY2027 TARGETS BY ASSET CATEGORY

ASSET CATEGORY	ULB / STANDARD	FY2027 TARGET	ASSETS OVER ULB / TOTAL*
BUSES	14 years	18.18%	10 / 55
CUTAWAY BUSES	10 years	25.00%	0 / 3
VANS	8 years	39.29%	22 / 56
SERVICE AUTOMOBILES	8 years	100.00%	2 / 2
SERVICE TRUCKS	8 years	44.44%	4 / 9
ADMIN / MAINTENANCE FACILITIES	Below 3.0 TERM rating	0.00%	0 / 2
PASSENGER / PARKING FACILITIES	Below 3.0 TERM rating	0.00%	0 / 1

*Counts show assets expected to exceed ULB in FY2027 / total assets in category.
Facilities use TERM condition ratings. Below 3.0: The facility is generally considered to be in marginal or poor condition and may need repairs, rehabilitation, or replacement.
3.0 or higher: The facility is generally in adequate or better condition.

FFY 2027 Road Safety Audits (RSAs) at Multiple Locations Project - Introduction and Overview

Summary

Staff is presenting the scope of work for Task 3500 and the process for selecting Road Safety Audit Locations for the MPO's review and comment.

Task Purpose

Task 3500 of the Old Colony Federal Fiscal Year (FFY) 2027 Unified Planning Work Program (UPWP) will improve transportation safety throughout the Old Colony region by conducting Road Safety Audits (RSAs) at a minimum of 15 high-crash locations. The task supports the Massachusetts Strategic Highway Safety Plan and focuses on reducing fatal and serious injury crashes involving motorists and vulnerable road users, such as pedestrians, bicyclists, and transit users.

RSAs provide a formal, data-driven review of existing or planned roadways and intersections. They identify practical safety improvements and help develop projects that can be advanced through regional and state transportation programs.

Task Scope

The scope of work includes the following:

- Analyzing regional and state crash data from the most recent available 3–5-year time period to identify high-crash intersections and corridors, using crash rates, Equivalent Property Damage Only (EPDO) calculations, and safety performance measures, and comparing results to state and district averages.
- Developing regional rankings of hazardous locations and maintaining the Top 100 high-crash locations list.
- Conducting Road Safety Audits at a minimum of 15 selected locations, using multidisciplinary audit teams and MassDOT guidelines and templates.
- Collecting supplemental data, including turning movement counts, traffic volumes, speeds, vehicle classifications, and pedestrian activity.
- Developing site-specific recommendations for safety improvements.
- Supporting implementation of the Safe System Approach and the Safe Streets for All (SS4A) Vision Zero Action Plan.
- Incorporating safety findings into the Transportation Improvement Program (TIP), the Vision 2050 Long Range Transportation Plan (LRTP), and other planning efforts.
- Monitoring safety performance measures and evaluating the effectiveness of implemented safety improvements.

Location Selection

Audit locations will be drawn from the Top 100 high-crash locations list and from priority locations submitted by Old Colony member communities. Staff will coordinate with MassDOT so that audits are not duplicated at locations where an RSA has already been completed or is underway.

Expected Products

Deliverables include:

- Completed Road Safety Audit reports for a minimum of 15 locations.
- EPDO calculations, regional high-hazard location rankings, and an updated Top 100 high-crash locations list.
- Supplemental traffic and pedestrian data collected at audit locations.
- Safety recommendations for intersections, corridors, and pedestrian crossings.
- Identification of candidate safety projects for future funding and implementation.

Schedule and Funding

Task 3500 will be conducted throughout FFY 2027 (October 1, 2026 to September 30, 2027) and completed by September 2027. Key milestones are:

- Solicit priority locations from member communities: Fall 2026
- Select audit locations: Fall 2026
- Conduct Road Safety Audits: January - August 2027

- Complete draft and final RSA reports: Ongoing as RSAs are conducted; Summary of Program Report in September 2027
- Update the Top 100 high-crash locations list: January - February 2027

The total budget for Task 3500 is $90,000, funded through combined Federal Highway Administration (FHWA) Metropolitan Planning funds, Federal Transit Administration (FTA) 5303 Funds, and MassDOT matching funds. The budget includes direct costs.

October 20, 2026 Old Colony MPO Meeting
Agenda Item 10
Prioritization and Regional Investment Strategy Model (PRISM) - Update and Status Report

Summary

The Old Colony MPO Prioritization Process Pilot Program, administered by the Old Colony Planning Council (OCPC), is a comprehensive initiative to develop, test, and institutionalize a structured, transparent, and data-informed system for selecting and advancing transportation projects across the Old Colony MPO region. With a total project cost of $1,990,620, this program represents a significant opportunity to modernize how transportation investments are planned, ranked, and communicated, thus ensuring that public funds are directed toward projects that meet regional needs and long-term objectives.

This effort will formalize a regionwide framework that evaluates projects based on quantifiable criteria, including safety, environmental sustainability, community and municipal support, equitable access, economic development, and resilience. The project aims to unify and strengthen decision-making across multiple planning documents, including the Transportation Improvement Program (TIP), the Long-Range

Transportation Plan (LRTP), the Unified Planning Work Program (UPWP), and the Public Participation Plan (PPP).

Key components of the program include the development of a performance-based project evaluation framework, the creation of a publicly accessible and interactive project dashboard, and a targeted outreach strategy that ensures meaningful participation from residents, municipalities, and regional stakeholders. The project will also assess historical barriers to project advancement (such as readiness, permitting, or public support) and recommend solutions to prevent future implementation delays. To facilitate this, the consultant will help OCPC pilot scoring criteria on real-world projects, using lessons learned from past TIP projects and feedback gathered through surveys, workshops, and community engagement sessions.

PRISM

PRIORITIZATION & REGIONAL INVESTMENT STRATEGY MODEL

A structured, data-driven framework for prioritizing and advancing regional infrastructure investments.

initiative horizon

FHWA PILOT

If successful, replicated nationwide

Smarter decisions. Safer streets. Stronger communities.

ROADMAP

Six phases move PRISM from planning to regional roll-out

1	2	3	4	5	6
INITIATION + PLANNING	DATA INVENTORY + GAPS	FRAMEWORK DEVELOPMENT	TECHNOLOGY + DASHBOARD	PILOT + REFINEMENT	ROLL-OUT + CAPACITY
JAN–MAR 2026	APR–SEP 2026	OCT 2026–MAR 2027	MAR–SEP 2027	SEP 2027–JAN 2028	JAN–MAR 2028
		CURRENT PHASE			

The program builds the methodolgy first, then the technology, then regional capacity to use it.

PROGRESS UPDATE

Engagement is underway as the data-and-gaps phase closes

JAN 2026 — Project kick-off aligned scope, roles, decisions, data readiness, risks, and schedule.

APR 2026 — Comprehensive Data Inventory & Gaps Analysis

JUN 9–10 — Municipal and regional partner workshops tested priorities and process concepts in two (2) in-person and one (1) virtual events.

FALL 2026 — Public Priorities Survey and tabling events at BSU, Stoughton and Hanson Days, and E. Bridgewater Town Meeting have also extended community input.

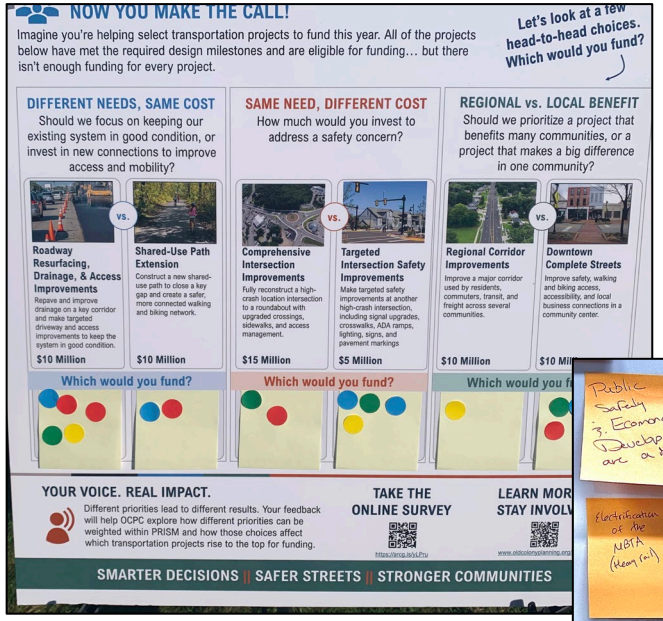

SEP 24 — Virtual Webinar for residents to explain regional transportation planning and funding, explore residents' priorities, and provide opportunity for feedback on progress made to date.

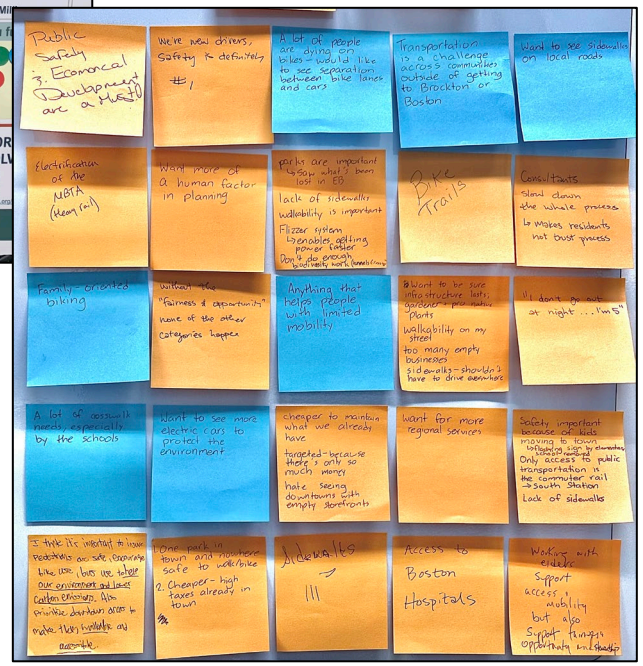

UPCOMING — Additional events and Special Town Meetings; Collation and refinement of comments and response data; Framework development

Particular themes are arising...

EQUITY

Smaller towns need help, administratively and financially

ENVIRONMENT

Wildlife movement concerns
Electrification of Commuter Rail

WORKFORCE

Economic Development to lower tax rates on residents

SAFETY

More sidewalks needed [most common]
Separated bike lanes, paths

ACCESS

More destinations that matter
More ways to get there

COMMUNITY

Consultants slow processes, jeopardize trust
More consideration of human element in transit

A decision model people can understand and trust.

*A model earns trust when communities can see both their **priorities** and the **reasoning** behind the result.*

Administrative Matters, Other Business, and Date and Time of Next Meeting(s)

Summary

Federal Funds & Infrastructure Office (FFIO)

The Federal Funds & Infrastructure Office is the lead agency within the Healey-Driscoll Administration tasked with implementing a whole of government approach to ensuring the Commonwealth of Massachusetts can leverage the historic opportunities available for federal funding.

The Federal Funds & Infrastructure Office (FFIO) has launched an ambitious inter-agency strategy for the Commonwealth to successfully compete for the historic levels of federal funding available from the Bipartisan Infrastructure Law (BIL), Inflation Reduction Act (IRA), the CHIPS and Science Act, and more. FFIO is responsible for tracking federal opportunities, facilitating the submission of successful applications for federal funding, and advocating on behalf of Massachusetts projects that advance key priorities including infrastructure, jobs, economic competitiveness, affordable housing, clean energy, decarbonization, resilience, equity, and workforce development.

The next Federal Funds Partnership Meeting is **October 27, 2026 at 2:00 p.m.** A newsletter ahead of that meeting with new grant opportunities, contact information, and other helpful resources will be distributed.
